in this accessible study stephen humphreys introduces the most elusive of the early caliphs mu awiya ibn abi sufyan 602 680 notoriously

guarded about his thoughts motives and emotions mu awiya was universally known as a figure of immense political acumen beyond this opinions are deeply divided throughout history some have accused him of being the first caliph to diverge from muhammed s model of ideal muslim leadership whilst others credit him with uniting an empire in disarray and transforming the caliphate into a practicable form of government in light of this humphreys critically analyses his sources and seeks to get as close as possible to a historical account of the great man

the bulk of the average westerner s infinitesimal knowledge of islam and of middle eastern muslim societies is derived from an image which not only film and television industries portray but also daily and weekly publications as well the media in general this knowledge of these muslim societies that are tribally organized appears to be images of violence and terrorism that we associate with the middle east in david hart s view all of this represents the grossest possible misrepresentation he has singled out a small number of films and works of fiction directed and written by both westerners as well as muslims they tend to show tribesmen as one admittedly small but nonetheless striking segment of the overall middle eastern muslim population in a more favorable light
