i have read the draft of this book sent to me by the editor after reading this draft i do think this book is valuable and timely it discusses the contemporary issues that have worried many people in the present world terrorism human rights islamic radicalism and the problem of identity in the singaporean capitalism these issues are not discussed in the theoretical abstract way it also doesn t meant that theories are not discussed at all but in the context of various concrete societies the book deals with one of the above issues in malaysia singapore and indonesia aceh and sumenep in madura each issue is written by a different author that has studied the issue thoroughly so the book is a collection of research done by specialists of these issues two essays on southeast asia one on health and the other on human security give the general picture of this region acting as a broad introduction of the chapters that follow each chapter has been written professionally and the readers will learn many things from each of them one has to read the chapter in order to really appreciate them therefore i really recommend that this manuscript to be published as a book in order to get a large audience one shortcoming though this book deals with three countries only malaysia singapore and indonesia albeit these three are the important countries in the region other important southeast asian countries such as thailand the philippines and burma are not discussed individually with the omission of these countries it thus can be argued whether this book can represent the southeast asian region also in dealing with indonesia the chapters talk on sub national level namely on aceh province and a peripheral city sumenep in the island of madura east java while malaysia and singapore are dealt on the level of nation state to conclude even with these shortcomings this book is still valuable therefore i would like to recommend it be published â arief budiman foundation professor of indonesian asia institute the university of melbourne australia
