today there are 77 million baby boomers living in the u s meaning 10 000 people will be turning 65 years old every day currently most boomers aren t in assisted living yet however they will be moving into senior housing in droves over the next couple of decades add to this the increasing numbers of boomer s parents already making this transition with limited resources available at this time planning for assisted living can be overwhelming for those who are making difficult choices for their loved ones or themselves these choices have only been complicated and made more urgent by the covid 19 pandemic contrary to popular belief retirement homes are not the only option for our population s aging members anymore adult family homes designed to allow senior citizens to live mostly independently with access to a variety of amenities provide an alternative for individuals or couples who can no longer safely live on their own but don t want to relegate themselves to assisted living facilities investment in this innovative category of senior living is a relatively new opportunity that many are not aware of this book will give you the tools to decide if this could be a right fit for you and your family you will learn what is happening in the senior care industry today and what the options are how smaller senior care homes are becoming ever popular in the wave of covid19 how to invest in a senior care home how to convert your home or property into a senior care home how to protect the wealth of your family and honor mom and dad designed as a practical guide through the complex world of senior living here is the advice and guidance to help you make decisions that honor the elderly protect family resources and provide an investment opportunity in today s fast growing segment of the real estate market

my second set of analyses considers the factors that shape residents social support networks my results indicate that on the whole whether residents had control over their move to assisted living predicts their social support outcomes residents who had control over their move are more likely to maintain satisfactory relationships with both their family and friends this suggests that future studies would benefit from a more in depth analysis of what can be done to ensure that elders feel they are in control of the relocation process such studies could provide facility administrators as well as all residents and their families with information that could ease the transition into assisted living

majority report of the seniors commission containing recommendations for federal policy in planning for the needs of seniors in the areas of housing and health facilities in the 21st century submitted by seven of the thirteen commissioners and including a separate minority report submitted by the remaining six commissioners

almost a decade ago peter s silin wrote nursing homes the family s journey to provide family members with practical advice and emotional support this successor volume incorporates the new and sometimes baffling world of assisted living nursing homes and assisted living focuses on the psychological emotional and practical aspects of helping family members and seniors make a difficult transition silin approaches his subject with compassion and sensitivity guiding readers through the process of finding the best possible care he describes how nursing homes and assisted living facilities

work and outlines the selection process he explains how to prepare for the day a relative moves into a facility and suggests ways to help the resident settle in he focuses on the family member s role in solving problems obtaining good quality care and visiting the author s insights help caregivers cope with difficult decisions and deal with emotional issues such as guilt and grief while celebrating the tender rewarding aspects of being a caregiver vignettes from real life caregivers narrating their experiences amplify silin s advice and will resonate with families this book provides caregivers family members and seniors with the information they need to effect successful transitions it is also a valuable tool for social workers nurses and family therapists

winner of the 1994 progressive architecture award for architectural research victor regnier s work is one of the few significant additions to the research on one of the most important architectural challenges facing the design professions today how to design supportive and attractive environments for our nation s rapidly growing aged population his research and writing challenge the profession to reconceive these environments as enriched housing rather than health care institutions bradford perkins faia partner perkins eastman and partners victor regnier s new book should be read both for its approach to using environment behavior research and for the lessons it has to offer about assisted living the book is itself a prototype of inquiring process and design content its vivid examples and careful analysis significantly improve our understanding of the cross cultural principals of prototype buildings john zeisel ph d author inquiry by design tools for environment behavior research as the nation moves towards the development of a comprehensive health care system it is clear that a major component of the plan will be alternatives to institutionalization victor regnier s exemplary book clearly and cogently discusses the newest most exciting and most promising of these alternative housing health care arrangements assisted living for such a new concept to receive detailed attention from such a seasoned researcher is fortunate indeed it is must reading for professional and consumer alike paul a kerschner ph d executive director the gerontological society of america
