con respeto presents a study of ten mexican immigrant families with a special focus on mothers that describes how such families go about the business of surviving and learning to succeed in a new world guadalupe valdés examines what appears to be a lack of

interest in education by mexican parents and shows through extensive quotations and numerous anecdotes that these families are both rich and strong in family values and that they bring with them clear views of what constitutes success and failure the book s conclusion questions the merit of typical family intervention programs designed to promote school success and suggests that these interventions because they do not genuinely respect the values of diverse families may have long term negative consequences for children con respeto will be a valuable resource in graduate courses in foundations ethnographic research sociology and anthropology of education multicultural education and child development and will be of particular interest to professors and researchers of multicultural education bilingual education ethnographic research methods and sociology and anthropology of education this rich and absorbing study of mexican parents in border communities leads to more complex rather than single minded solutions to school success valdés sees to the center of things and deftly questions the merit of typical educational interventions aimed at promoting school success these interventions grounded in mainstream values do more harm than good they do not show respect for deeply ingrained familistic values the cultural capital that immigrant parents bring with them on their backs and in their hearts from their homeland and they devalue the social and linguistic competence of immigrant parents and their children valdés does not provide solutions she does however lead the search with her strong but cautious narrative voice for a suf ciently complex and multi leveled understanding of the challenges facing families who move across borders as immigrants from the foreword by carol stack

mathematics and science education have both grown in fertile directions in different geographic regions yet the mainstream discourse in international handbooks does not lend voice to developments in cognition curriculum teacher development assessment policy and implementation of mathematics and science in many countries paradoxically in spite of advances in information technology and the flat earth syndrome old distinctions and biases between different groups of researcher s persist in addition limited accessibility to conferences and journals also contribute to this problem the international sourcebooks in mathematics and science education focus on under represented regions of the world and provides a platform for researchers to showcase their research and development in areas within mathematics and science education the first sourcebook on asian research in mathematics education china korea singapore japan malaysia and india provides the first synthesized treatment of mathematics education that has both developed and is now prominently emerging in the asian and south asian world the book is organized in sections coordinated by leaders in mathematics education in these countries and editorial teams for each country affiliated with them the purpose of unique sourcebook is to both consolidate and survey the established body of research in these countries with findings that have influenced ongoing research agendas and informed practices in europe north america and other countries in addition to serving as a platform to showcase existing research that has shaped teacher education curricula and policy in these asian countries the book will serve as a standard reference for mathematics education researchers policy makers practitioners and students both in and outside asia and complement the nordic and nctm perspectives

a great deal of political and academic responses to the israel palestine conflict have construed the palestinians as an object of western and israeli discourses rather than their own palestinian discourse this has hindered understanding of the internal mechanisms involved in the production of the palestinian conditions palestinian political discourse presents an in depth examination of palestinian political discourse since an nakba in 1948 and stitches together the underlying mechanisms and rules that have shaped palestinian politics in turn synthesizing interpreting and scrutinizing these rules studying the question of palestine

discursively offers new ways to rethink political agency structures identity institutions and power relations while interpreting palestinian actions this book adds new understanding to palestinian political agency by explaining how political actions were constructed discourse analysis methodology underlies the critical examination of the genealogy of concepts and frames that have oriented palestinian political thought contrary to established views that ascribe shifts in palestinian politics primarily to external factors and international changes this book demonstrates how transformation has been a continuing inbuilt feature within the discursive regime and that dramatic shifts were only effects of much deeper slowly evolving changes examining discourse and thus language offers an exceptional possibility to see from the palestinian perspective as such this book provides material vital to the deeper interpretation of the palestinian question it will be a valuable resource for students and scholars of israel palestine studies middle east studies and discourse analysis
