this book examines how Shakespeare's plays resurface in current complex TV series. Its four case studies bring together *The Tempest* and the science fiction western *Westworld*, *King Lear* and the satirical dynastic drama of *Succession*, *Hamlet* and the legal thriller *Black Earth Rising*, as well as *Coriolanus* and the political thriller *Homeland*. The comparative readings ask what new insights the twenty-first century remediations may grant us into Shakespeare's texts and vice versa. How Shakespearean returns help us understand topical concerns negotiated in the series such as artificial intelligence, the safeguarding of democracy, terrorism and postcolonial justice? This study also proposes that the dramaturgical seriality typical of complex TV allows insights into the seriality Shakespeare employed in structuring his plays, discussing a broad spectrum of adaptational constellations and establishing key characteristics of the new adaptational aggregate of serial Shakespeare. It seeks to initiate a dialogue between Shakespeare studies, adaptation studies and TV studies.

In this wide-ranging and ambitiously conceived research companion, contributors explore Shakespeare's relationship to the classic in two broad senses. The essays analyze Shakespeare's specific debts to classical works and weigh his classicism's

likeness and unlikeness to that of others in his time they also evaluate the effects of that classical influence to assess the extent to which it is connected with whatever qualities still make shakespeare himself a classic arguably the classic of modern world literature and drama the first sense of the classic which the volume addresses is the classical culture of latin and greek reading translation and imitation education in the canon of pagan classics bound shakespeare together with other writers in what was the dominant tradition of english and european poetry and drama up through the nineteenth and even well into the twentieth century second and no less central is the idea of classics as such that of books whose perceived value exceeding that of most in their era justifies their protection against historical and cultural change the volume s organizing insight is that as shakespeare was made a classic in this second antiquarian sense his work s reception has more and more come to resemble that of classics in the first sense of ancient texts subject to labored critical study by masses of professional interpreters who are needed to mediate their meaning simply because of the texts growing remoteness from ordinary life language and consciousness the volume presents overviews and argumentative essays about the presence of latin and greek literature in shakespeare s writing they coexist in the volume with thought pieces on the uses of the classical as a historical and pedagogical category and with practical essays on the place of ancient classics in today s shakespearean classrooms
