the last indian war was fought against native american children in the dormitories and classrooms of government boarding schools only by removing indian children from their homes for extended periods of time policymakers reasoned could white civilization take root while childhood memories of savagism gradually faded to the point of extinction in the words of one official kill the indian and save the man education for extinction offers the first comprehensive account of this dispiriting effort much more than a study of federal indian policy this book vividly details the day to day experiences of indian youth living in a total institution designed to reconstruct them both psychologically and culturally the assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages victorian gender rituals football contests and industrial training especially poignant is adams s description of the ways in

which students resisted or accommodated themselves to forced assimilation many converted to varying degrees but others plotted escapes committed arson and devised ingenious strategies of passive resistance adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender this is especially apparent in his analysis of students who returned to the reservation he reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men the discussion comes full circle when adams reviews the government's gradual retreat from the assimilationist vision partly because of persistent student resistance but also partly because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less enthusiastically based upon extensive use of government archives indian and teacher autobiographies and school newspapers adams's moving account is essential reading for scholars and general readers alike interested in western history native american studies american race relations education history and multiculturalism

in the long shadows cast by the robert bork and clarence thomas nominations supreme court confirmations remain highly contentious and controversial this is due in part to the senate's increasing reliance upon a much lengthier much more public and occasionally raucous confirmation process in an effort to curb the potential excesses of executive power created by presidents seeking greater control over the court's ideological composition michael comiskey offers the most comprehensive systematic and optimistic analysis of that process to date arguing that the process works well and therefore should not be significantly altered comiskey convincingly counters those critics who view highly contentious confirmation proceedings as the norm senators have every right and a real obligation he contends to scrutinize the nominees constitutional philosophies he further argues that the media coverage of the senate's deliberations has worked to improve the level of such scrutiny and that recent presidents have neither exerted excessive influence on the appointment process nor created a politically extreme court he also examines the ongoing concern over presidential efforts to pack the court concluding that stacking the ideological deck is unlikely as an exception to the rule comiskey analyzes in depth the thomas confirmation to explain why it was an aberration offering the most detailed account yet of thomas's pre-judicial professional and political activities he argues that the senate judiciary committee abdicated its responsibilities out of deference to thomas's race another of the book's unique features is comiskey's reassessment of the reputations of twentieth century supreme court justices based on a survey of nearly 300 scholars in constitutional law and politics it shows that the modern confirmation process continues to fill court vacancies with jurists as capable as those of earlier eras we have now seen the longest period without a turnover on the court since the early nineteenth century making inevitable the appointment of several new justices following the 2004 presidential election thus the timing of the publication of seeking justices could not be more propitious
