this unique and pioneering book critically appraises current work from both the cognitive science of religion and the evolutionary study of religion it addresses the question why does the believer possess supernatural or religious beliefs in the combined context of his cognitive biases their adaptive usefulness measured in terms of survival and reproduction and the impact of social learning and cultural traits the authors outlines a pluralistic approach to the study of religion that does not treat religion as an accidental by product but an adaptation selected by natural selection chapters discuss the role of religious components for the evolution of cooperation and altruism and explore the development of atheism and secular ideas in cognitive and evolutionary terms topics such as the usefulness of religion the transmission of religious beliefs and a darwinian approach to religion are among those addressed contrary to standard views religious biases are regarded as shaped by cultural influences and not merely by natural dispositions this monograph will particularly appeal to researchers who are looking for a scientific explanation of religion and religious beliefs but who do not stop at the level of narrow cognitive and evolutionary accounts the work will also be of interest to students of philosophy sociology religious studies theology or anthropology who seek to explain such fascinating complex and unequivocal phenomena as religion and religious components

this book takes a multi dimensional and multi disciplinary approach to religion religiosity and theology from their earliest beginnings to the present day it uniquely brings together the natural sciences and theology to explore how religious practice emerged and developed through the four sections into which the book is organized evolutionary biology philosophical linguistics psychology and neuroscience theology and anthropology the volume features an international panel of contributors who develop an innovative picture of religion as a

culturally created social institution religiosity as a more personal and subjective anthropological element of people expressed through religion and theology as the study of god to survive in changing times living systems a good characterization of religion religiosity and theology all must adaptively evolve this is a vital study of a rapidly burgeoning field as such it will be of great interest to scholars in religious studies and theology as well as in the psychological sociological and anthropological study of religion

what is this thing called philosophy of religion grapples with the core topics studied on philosophy of religion undergraduate courses including the meaning of religious language including 20th century developments the nature of the divine including divine power wisdom and action arguments for the existence of the divine challenges to belief in the divine including the problems of evil divine hiddenness and religious diversity believing without arguments arguments for life after death including reincarnation in addition to the in depth coverage of the key themes within the subject area elizabeth burns explores the topics from the perspectives of the five main world religions introducing students to the work of scholars from a variety of religious traditions and interpretations of belief what is this thing called philosophy of religion is the ideal introduction for those approaching the philosophy of religion for the first time containing many helpful student friendly features such as a glossary of important terms study questions and further reading

this volume aims to revitalize the exchange between sociological differentiation theory and the sociology of religion which previously held center stage among the sociological classics it brings together contributions from different disciplines as well as various forms of regional and historical expertise which are indispensable in forming a globally oriented sociological perspective today secularization is understood as a process of boundary demarcation that is as the enactment of semantic practical and institutional distinctions between religion and other spheres of activity and knowledge these distinctions may emerge from within the religious field itself or may be absorbed into the field having originally emerged elsewhere they may even be directly imposed upon religion by external forces the volume is therefore based on the premise that societal differentiation and secularity as a specific expression of it is a widespread structural feature that nonetheless takes on various forms depending on its historical and cultural context in order to make this diversity visible the volume adopts a global comparative perspective and examines historical distinctions and differentiations in the west and beyond by examining different forms and modes of secularity in statu nascendi the volume contributes to developing a better understanding of the diversity of secularities even of those found in the present day in terms of their historicity and their specific path dependencies with this shift in perspective this special volume initiates a global and historical turn in the theory of differentiation as

well as in the study of secularity

widely regarded as the definitive reference this volume comprehensively examines the psychological processes associated with religion and spirituality leading scholars from multiple psychological subdisciplines present developmental cognitive social psychological cultural and clinical perspectives on this core aspect of human experience the forms and functions of religious practices and rituals conversion experiences and spiritual struggles are explored other key topics include religion as a meaning system religious influences on prosocial and antisocial behavior and connections to health coping and psychotherapy new to this edition two chapters on cross cultural issues chapters on spiritual goals emotional values and mindfulness reflects significant theoretical and empirical developments in the field many new authors and extensively revised chapters robust index amplifies the volume s usefulness as a reference tool a choice outstanding academic title
