of all the issues in the philosophy of religion the problem of reconciling belief in god with evil in the world arguably commands more attention than any other for over
two decades michael l peterson s the problem of evil selected readings has been the most widely recognized and used anthology on the subject peterson s expanded
and updated second edition retains the key features of the original and presents the main positions and strategies in the latest philosophical literature on the subject
it will remain the most complete introduction to the subject as well as a resource for advanced study peterson organizes his selection of classical and contemporary
sources into four parts important statements addressing the problem of evil from great literature and classical philosophy debates based on the logical evidential and

existential versions of the problem major attempts to square god's justice with the presence of evil such as augustinian irenaean process openness and felix culpa theodicies and debates on the problem of evil covering such concepts as a best possible world natural evil and natural laws gratuitous evil the skeptical theist defense and the bearing of biological evolution on the problem the second edition includes classical excerpts from the book of job voltaire dostoevsky augustine aquinas leibniz and hume and twenty five essays that have shaped the contemporary discussion by j i mackie alvin plantinga william rowe marilyn adams john hick william hasker paul draper michael bergmann eleonore stump peter van inwagen and numerous others whether a professional philosopher student or interested layperson the reader will be able to work through a number of issues related to how evil in the world affects belief in god

a fascinating journey through intriguing mathematical and philosophical territory a lively introduction to this contemporary topic

this book provides a philosophy of mathematics that resonates with critical mathematics education it draws attention to the social complexities that characterise the period of modernity including the extreme exploitation of manual workers and their families brutal forms of colonisations trading of slaves and the formation of racist ideologies it portrays modernity as a period of contradictions and highlights that mathematics is a part of these contradictions the text interprets mathematics as being indefinite seeing that mathematics is a part of the ongoing human constructions it outlines a performative interpretation of mathematics portraying mathematics as intrinsically connected to actions any kind of action including mathematics based actions calls for ethical considerations and this leads to any mathematical practice either in research application or education to face ethical challenges it illustrates with examples how a critical philosophy of mathematics can come to be an integral part of classroom practices

the philippines is a fascinating example of a poor country democracy where issues of economic development and poverty political participation and stability as well as ethnicity and migration are crucial the routledge handbook of the contemporary philippines provides a comprehensive overview of the current political economic social and cultural issues of the country the handbook is divided into the following four sections concentrating on a different aspect of the philippines domestic politics foreign relations economics and social policy cultures and movements in terms of domestic politics chapters discuss clientelism bossism dynasties pork barrel and corruption as well as institutions the presidency congress the judiciary the civil service political parties and civilian military relations the philippines is confronted with many overseas challenges with the foreign relations section focused on the country's relationship with china japan and the usa as well as assessing the impact of the filipino diaspora community around the world regarding economics and social policy authors examine industrial policy capital flight microfinance technocracy economic nationalism poverty social welfare programs and livelihoods the final section on philippine cultures and movements highlights issues of customs gender religion and nationalism while also examining various social and political forces the peasantry the middle class indigenous peoples ngos the left trade unionism the women's movement and major insurgencies written by leading experts in the field the handbook provides students scholars and policymakers of southeast asia with an interdisciplinary resource on the evolving politics society and economics of the philippines

this book is an exploration and defense of the coherence of classical theism's doctrine of divine aseity in the face of the challenge posed by platonism with respect to abstract objects a synoptic work in analytic philosophy of religion the book engages discussions in philosophy of mathematics philosophy of language metaphysics and metaontology it addresses absolute creationism non platonic realism fictionalism neutralism and alternative logics and semantics among other topics the book offers a helpful taxonomy of the wide range of options available to the classical theist for dealing with the challenge of platonism it probes in detail the diverse views on the reality of abstract objects and their compatibility with classical theism it contains a most thorough discussion rooted in careful exegesis of the biblical and patristic basis of the doctrine of divine aseity finally it challenges the influential quinean metaontological theses concerning the way in which we make ontological commitments
