the 12 year old was conscripted to fight a losing war between nigeria and the new state of biafra he was taken alongside his uncle on their way to harvest fruits in the rural parts of the igbo heartlands much against their will it was determined as a desperate attempt of the nearly vanquished army in the uneven sided war of genocide waged against the much hated ethnic group at that point in time men and boys of almost any age were taken to combat to stave the impending defeat by the well trained and equipped assailants who used all at their disposal including hunger starvation total malnutrition and abject poverty to achieve their end after more than a

year in the ill prepared role of a soldier without a gun the child soldier was picked unconscious from the rubble of a bombed out shelter at a college compound that served as a make shift army barrack he was bleeding profusely and his left leg was shattered and he was unresponsive at the scene his uncle who had tried to protect and keep him alive was also severely injured however both recovered though with visible external and internal wounds they shared the same hospital for wounded soldiers when the war ended with the routing of the ill equipped army that was fighting only for survival with no meaningful arms ammunition or military organisation the intervention of the international red cross and the religious charities protected and sustained the wounded service men and all the ethnic population who symbolically considered all as wounded too the end of the war saw the then 13 year old back at his secondary school as his physical emotional and psychological being was put together he continued his studies even to the highest level of academic and professional achievement the novel ends with the former child soldier receiving his accreditation and taking his hippocratic oath to practice medicine to care and save not kill

this book offers a jurisprudential meditation on and methodological performance of how feminist and legal thought come into relation this book is about the conduct of one s scholarship and why it requires examination across six essays the book reintroduces official and unofficial jurisprudence writing of the late 20th century to show how disciplinary methods were transformed and how relations between people and place and between law and humanities were transferred from the periphery to the centre of contemporary scholarship to demonstrate this story feminist jurisography experiments with genre style and form to historicise the relationship of a feminist jurisprudent to her own sources methods and interlocutors and remind that it was feminist intellectuals from 1949 onwards who altered conducts of interdisciplinary scholarship in ways that are underacknowledged today it exemplifies why naming a practice for yourself is an acknowledgment of relations of difference collaboration and inheritance but also a performance of the feminist tradition of intellectual self assertion that the book explores the book will be a useful resource for scholars and students of law and humanities feminism and history and of value to a general audience interested in feminist ideas the book will benefit contemporary conversations about the history and status of feminist contributions to these fields
