this collection of fourteen essays by scholars from canada europe the united kingdom and the united states emerges from a growing interest in the ways postmodern theory can illuminate not just the products and ideas of high culture but also the ins and outs of everyday life taking the university classroom broadly construed as a site of theoretical investigation this volume helps us to understand troublesome classroom dynamics as well as offering pedagogical strategies for dealing with them it also illuminates current pressures on higher education that find expression in the classroom as a forum for these issues these essays draw upon deleuzian feminist foucauldian and psychoanalytic approaches among others recognizing not only that these approaches are often in conflict but also that collectively they enhance our understanding of the classroom important questions posed here include whether and if so how we can combine a marxist or foucauldian emphasis on the disciplinary and hegemonic practices of educational

institutions with a lacanian or barthesian appreciation for the disruptive pleasures and drives that the unconscious produces within and through students teachers and classrooms which theoretical and pedagogical innovations can help teachers and students to get the job done as well as to theorize the job to simultaneously practice education and imagine other forms and ends for education how can theory help us to historicize criticize and re draw the productive but sometimes disabling lines that make the classroom and its subjects a site for lively theoretical debate about these and related pedagogical issues this volume will prove useful for anyone wanting to reinterpret reinvent and reinvigorate the classroom

theory has been used widely in the field of second language writing second language writing specialists teachers researchers and administrators have yet to have an open and sustained conversation about what theory is how it works and more important how to practice theory practicing theory in second language writing features fourteen essays by distinguished scholars in second language writing who explore various aspects of theoretical work that goes on in the field

this comprehensive text takes a models approach by presenting separate chapters on individual theorists and perspectives within this well organized structure gredler offers meticulously accurate coverage of contemporary learning theories and their application to educational practice including issues of readiness motivation problem solving and the social context for learning key content include increased emphases on the contributions of neuroscience and of vygotsky s work

firmly established as a comprehensive introduction on the topic this 6th edition provides a wide ranging outline of the major instructional and training concepts and their relationship to training in practice the authors have expanded on information relating to the training environment equipment and strategies as well as new material on cognitive task analysis cta and a new chapter on individual training and development written with the newcomer to the training function in mind it provides numerous real life case studies to illustrate the theory this engaging and practical book is as valuable to those who want to put their training experience into a coherent context as it is to managers who need to understand the role that training can play

this text fully explores the clinical nurse specialist s role as a direct provider of patient care as a researcher as a consultant and as an educator presents a comprehensive analysis that runs the gamut from history conceptualization and development to practice education evaluation and future directions for clinical specialization within the nursing profession winner of ajn book of the year award in previous edition

the interest of the writers of these essays in the intricacies and implications of translation in the middle ages or of the translation of medieval texts in the modern period has resulted in a diverse and intellectually stimulating volume the papers in this volume written in either english french or spanish approach translation from a wide variety of perspectives and offer a range of interpretations of the concept of translation the volume contains essays ranging in time from the anglo saxon period to the present and in topic from medieval recipe books to arguments in favour of women administering the sacrament languages studied include non european languages as well as latin and numerous european vernaculars as both source and target languages as any translator or student of translation quickly

becomes aware it is impossible to divorce language from culture all the contributors to this volume struggle with the complexities of translation as a cultural act even when the focus would seem to be specifically linguistic it is these complexities which lend the study of the theory and practice of translation in the middle ages its enduring fascinat

includes official department conducted by superintendent of public instruction
