the government has been widely commended for its efforts to improve business conditions and reduce corruption the while a relatively conservative fiscal policy has helped boost the economy's credibility and steer investment into the private sector with the economy concentrated in the metro manila region major challenges lie ahead in overcoming long standing infrastructure bottlenecks and developing stronger energy and manufacturing sectors yet the government is increasing its efforts to spread manufacturing and business process outsourcing growth across the country and clear obstacles to developing other sectors where outlying regions have strong potential 2015 is set to mark the inaugural year of the asean economic community with the philippines playing an integral role in the foundation of this ambitious regional venture

america in the age of trump is a bracing essential look at the failure of a great nation to meet the needs of its people and the challenges of the age and the resulting collapse of public trust in government as well as a pervasive crisis of national values from broken families to a loss of faith in the american idea itself this crisis of values occurs just as the country faces an unprecedented array of fiscal economic social and national security challenges out of control federal spending frighteningly large deficits massive gaps of income and opportunity cultural division and a dangerous world in which american power seems increasingly incidental in america in the age of trump douglas e schoen and jessica tarlov offer a definitive and unique assessment of a nation in turmoil looking beneath well

known problems to identify underlying yet poorly understood causes readers will confront the crises one by one of trust values and governance of education economic opportunity and fiscal solvency of national security domestic tranquility and race relations america in the age of trump gathers in one place a clear and comprehensive evaluation of the fundamental issues confronting the american future while offering bold fresh approaches to meeting these challenges other books have described the specter of american decline but none has been so comprehensive in its diagnosis or forward looking and non ideological in its remedies explaining how we might yet overcome national self doubt to reclaim our traditional optimism reassert our place in the world and secure a prosperous future for our citizens

as american educational reformers continue to find innovative ways to address the global achievement gap many experts seem to agree that increasing instructional time is a viable option in addition to extending the school day some educational leaders have looked to modifying the traditional academic calendar to address some of the academic losses that occur when students have 8 10 weeks of summer vacation each year re examining how students spend their summer vacation although considered by many to be a cultural taboo may be the answer to addressing global competition and decreasing the national achievement gap the need for a two month break from schools harkens back to a pre industrial time that no longer is pertinent for our students although an answer may be staring us in the face are we willing to give up on the american tradition of summer vacation all in the name of reform and student success
