jabbed demonstrates that the medical procedure hailed as the greatest medical advancement in history vaccines is a racket run by criminals and gullible believers who have replaced vaccine science with the religion of vaccinology vaccine marketers teach believers to fear shame and scapegoat anyone foolish enough to question the sanctity of

vaccines such an environment is not the domain of science rather it s the breeding ground of tyranny jabbed exposes this tyranny from polio and smallpox to medical journals medical curricula congressional hearings regulatory policies white house statements and executive orders jabbed shines light on the dark underbelly of big pharma big medicine and big government a vaccine informed public is the only thing that will have the power to stop vaccine industry sociopaths and to hold them accountable for their crimes jabbed informs and immunizes against three of the most dangerous epidemics in history tyranny greed and corruption once immunized the growing vaccine informed community will have the power to stand up and dismantle the vaccine paradigm and program and to punish the perpetrators of what may well be the greatest medical fraud ever perpetrated on the human race vaccines

nautilus award winner 2019 silver in parenting family a comprehensive resource for parents therapists caregivers and educators packed with lifelong strategies for autism spectrum disorder asd management and support newly revised and updated this user friendly guide addresses autism identification treatment and prevention from pre conception through adulthood outsmarting autism describes more than 50 practical approaches with proven efficacy including lifestyle modification dietary considerations and boosting the immune system after health improves focus turns to developing the sensory foundations for communication social skills and learning patricia lemer s approach is grounded in research on multifactorial causes or total load theory which explains that developmental delays are caused not by one single factor but by an overload of environmental stressors on genetically vulnerable individuals because every person with autism is unique this book guides readers to the therapies that may be right for each individual helping to make the difference between management and healing new research on topics like stem cells cannabis and dentistry is now included

the onset can be fast and shocking or slow and insidious it can happen to anyone at any age a flu a vaccination or an

infection can be the innocent beginnings to the potentially life long and disabling illness called myalgic encephalomyelitis me which is more commonly known as chronic fatigue syndrome cfs or me cfs in north america in the mid 1980s the u s centers for disease control cdc was called in by concerned doctors who were witnessing an influx of patients with a mysterious illness eventually the cdc labeled the condition chronic fatigue syndrome which turned out to be very misleading decades later in 2016 health agencies are finally beginning to agree with international experts that me cfs is a serious chronic multi system illness through artwork poetry story telling and meticulous research lighting up a hidden world cfs and me takes readers into the fascinating yet frightening landscape of me cfs author valerie free shares her personal experiences and delivers illuminating first hand perspectives from patients caregivers journalists and medical professionals from within the global community in short easy to read segments these stories reveal the disgrace controversy and tragedy of worldwide neglect by political and health care systems leaving me cfs research underfunded and millions of people marginalized sick and socially unsupported lighting up a hidden world cfs and me advocates for those too ill to speak out abounds with patient resources and offers realistic hope for the future people living with this illness along with their family and friends will find compassion and camaraderie in its pages this book reaches beyond the me cfs community exposing the themes of human suffering resilience and the need for social change

it is a mystery story and a detective story about mankind s primordial quest for peace on earth which first requires that we understand how peace gets destroyed and like the thrillers on tv that reveal clues slowly you will see a crescendo of mysteries that i knew were clues if i could just figure them out those tough experiences were simply what i had to go through to develop the sensitivity to subliminal signals in nature that i never would have been able to pick up if my life had only been happy and easy yet the story is peppered with exhilarating moments of

transcendence love and naivete wonderful experiences dotted this life like pecans in cinnamon rolls

kent heckenlively new york times bestselling author of plague of corruption calls upon both common sense and legal precedence to fight against vaccine mandates around the country my body my choice used to be the rallying cry of the left in the abortion fight but now this same principle of bodily autonomy is the central argument of conservatives such as that of florida governor ron desantis in fierce opposition to so called vaccine passports which would limit whether an individual could attend movies or other public events work or even go to school if they chose to decline a covid 19 vaccine while cities like new york close their doors to unvaccinated people the fight against vaccine mandates is cobbling together an unexpected alliance across the political spectrum such as the black mayor of boston kim janey who recently claimed there s a long history in this country of people needing to show their papers and declaring any such passport as akin to slavery the starting point agreed upon by all parties as to whether the government can bring such pressure to bear upon individuals is the 1905 us supreme court of jacobson v massachusetts in that case a lutheran pastor declined a smallpox vaccination and was fined 5 the equivalent of a little more than 150 in today s currency or less than many traffic tickets the jacobson case sparked a shameful legacy in american jurisprudence being used as the sole reasoning by the us supreme court to allow the forced sterilization of a female psychiatric patient in 1927 this ruling paved the way for the involuntary sterilization of more than sixty thousand mental patients and gave legal justification to the eugenics movement one of the darkest chapters in american medicine in the case against vaccine mandates new york times bestselling author kent heckenlively whose books have courageously taken on big pharma google and facebook now points his razor sharp legal and literary skills against vaccine passports and mandates which he believes to be the defining issue as to whether we continue to exist as a free and independent people

about one in six children and many adults are diagnosed with neurodevelopmental disorders what causes autism

attention learning disabilities and anxiety patricia lemer answers that question with a new paradigm total load theory this etiology fingers not a single cause but rather a complex combination of biological environmental immunological neurological psychological and toxicological load factors lemer provides an in depth description of underlying stressors and how they accumulate causing sensory motor language social emotional and other symptoms leading to a diagnosis by applying this roadmap families and practitioners can learn how to maximize function in their loved ones and patients reversing poor lifestyle choices around diet sleep exercise along with returning traumatized nervous systems to feeling safe are all crucial next steps include enhancing digestion and immune and endocrine function lemer addresses the role of the sensory processing with an emphasis on vision she also looks at improving problematic dental structure and function the book moves into enhancing language and social emotional areas at all ages how these higher level areas depend on neurological biological and sensory integrity are described in detail the exciting new use of letterboards for communication can be life changing several chapters on future planning include options for education supervised living employment and finances the book ends with a chapter for prospective parents on reducing load factors from preconception the future is calling we must act now and this book is the perfect guide

an engrossing exposé of scientific practice in america kirkus reviews from the authors of the new york times bestselling plague of corruption comes the prescription on how to end the plague infecting our medical community ending plague continues the new york times bestselling team of dr judy a mikovits and kent heckenlively with legendary scientist dr francis w ruscetti joining the conversation dr ruscetti is credited as one of the founding fathers of human retrovirology in 1980 dr ruscetti s team isolated the first pathogenic human retrovirus htlv 1 ruscetti would eventually go on to work for thirty eight years at the national cancer institute dr ruscetti was deeply involved in performing some of the most critical hiv aids research in the 1980s pioneered discoveries in understanding the workings of the human immune

system in the 1990s isolating a new family of mouse leukemia viruses linked to chronic diseases in 2009 and offers his insights into the recent covid 19 pandemic in 1991 ruscetti received the distinguished service award from the national institutes of health dr ruscetti offers a true insider s portrait of nearly four decades at the center of public health his insights into the successes and failures of government science will be eye opening to the general public you will read never before revealed information about the personalities and arguments which have been kept from view behind the iron curtain of public health can we say our scientists are protecting us or is another agenda at work for most of his decades at the national cancer institute dr ruscetti has been in almost daily contact with his long time collaborator dr mikovits and their rich intellectual discussions will greatly add to our national discussion science involves a rigorous search for truth and you will come to understand how science scholars are relentless in their quest for answers

on july 22 2009 a special meeting was held with twenty four leading scientists at the national institutes of health to discuss early findings that a newly discovered retrovirus was linked to chronic fatigue syndrome cfs prostate cancer lymphoma and eventually neurodevelopmental disorders in children when dr judy mikovits finished her presentation the room was silent for a moment then one of the scientists said oh my god the resulting investigation would be like no other in science for dr mikovits a twenty year veteran of the national cancer institute this was the midpoint of a five year journey that would start with the founding of the whittemore peterson institute for neuro immune disease at the university of nevada reno and end with her as a witness for the federal government against her former employer harvey whittemore for illegal campaign contributions to senate majority leader harry reid on this journey dr mikovits would face the scientific prejudices against cfs wander into the minefield that is autism and through it all struggle to maintain her faith in god and the profession to which she had dedicated her life this is a story for anybody interested in the peril and promise of science at the very highest levels in our country

shortened and updated from an encyclopedia of scientists published by the institute of physics in 1993 follows the original plan of speaking as much about the science as about the scientist therefore basic vital and career statistics are provided but not biographical details and the focus is on scientific achievements and their importance a list of nobel winners and a subject index complete the reference annotation copyrighted by book news inc portland or
