practitioners must be able to listen talk communicate and engage with children and young people if they are going to make a real difference to their lives the key principles of collaborative relational child centred working underpin all the ideas in this bestselling practice focused textbook using an innovative knowing being doing model it features reflective exercises practice examples vignettes cutting edge research findings and theoretical perspectives this new edition includes updated references to policy legislation professional requirements practice tools and research including around unaccompanied young refugees and asylum seekers and child sexual exploitation new learning from ethnographic and observational research of social workers direct practice with children added focus on the context for practice including the role of supervision and organisational containment in developing practitioners emotional capabilities with detailed coverage of key skills this book will equip students and practitioners with the critical thinking and tools needed for effective practice in order to promote the welfare protection and rights of children and young people

this international and multi disciplinary edited collection unpacks some of the ethical complexities of conducting research with children and young people the chapters in the volume offer an applied perspective to navigating contemporary and complicated ethical issues that can arise in the field of childhood and youth centred research

an extensively revised version of the first edition this text focuses on the practical foundational knowledge required to practice social work effectively in the complex and fast changing world of services to children and their families the core organizing framework consists of eight pragmatic perspectives combating adultcentrism family centered practice the strengths perspective respect for diversity and difference the least restrictive alternative ecological perspective organization and financing and achieving outcomes unlike most texts that focus either on direct practice or on policy

petr's revised volume integrates current policy including recent reform efforts with best practices the student thus gains a deep appreciation for how direct social work practice is linked to and even guided by contemporary policy initiatives and the values that underscore those initiatives two new chapters are devoted specifically to the fields of child welfare and children's mental health providing an overview of the laws policies practices and terminology pertaining to each setting the next eight chapters focus on each pragmatic perspective and its relevance to child welfare and children's mental health the in depth case studies that comprise the concluding two chapters illustrate how typical client situations can be successfully addressed within the context of the pragmatic perspectives packed with case studies specific practice instruction chapter summaries and suggested learning activities this book prepares students and practitioners to think and act professionally in ways that are consistent with current laws values policies and reform efforts in the field

expands proposals originating in first steps a policy memorandum on children in developing countries formulated in 1994 by the government of the netherlands

the public outcry for a return to moral education in our schools has raised more dust than it's dispelled building upon his provocative ideas in *On Becoming Responsible* michael pritchard clears the air with a sensible plan for promoting our children's moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another's ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children's remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience

working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education
