poetry and the creation of a whig literary culture offers a new perspective on early eighteenth century poetry and literary culture arguing that long neglected whig poets such as joseph addison john dennis thomas tickell and richard blackmore were more popular and successful in their own time than they have been since these and other whig writers produced elevated poetry celebrating the political and military achievements of william iii s britain and were committed to an ambitious project to create a distinctively whiggish english literary culture after the revolution of 1688 far from being the penniless hacks and dunces satirized by john dryden and the scribblers they were supported by the patronage of the wealthy whig aristocracy and their works promoted as a new english literature to rival that of classical greece and rome poetry and the creation of a whig literary culture maps for the first time the evolution of an alternative early eighteenth century poetic tradition which is central to our understanding of the literary history of the period

women and increasingly produced by them this was the culture that writers such as wordsworth repudiated but the relationship between the culture that wordsworth represented and the culture that he opposed like the relationship between duellists was at once violently aggressive and mutually supportive each as many writers of the period recognized was dependent on the other
