swearwords have an almost magical power to shock and offend what explains this what can we learn when we take a close serious look at swearwords and how they work what do we find when we explore for example what exactly it is we're doing when we swear or why people are more tolerant of f when they know full well what it stands for than they are of the swearword it refers to philosopher rebecca roache takes readers on an illuminating and entertaining search for answers to these and other puzzling questions about swearing as she argues swearing is uniquely powerful because unlike other etiquette breaches it is designed to offend but that is not all that swearing can do it has the power to bring people together help them accept one another and relate to one another as equals

the text of thousands of speeches from all historical periods

through the 19th century arranged in alphabetical order

everything is sad wrote the ancient poets but is this sadness merely a human experience projected onto the world or is there a gloom attributable to the world itself could the universe be forever weeping the tears of things in this series of meditations dominic pettman and eugene thacker explore some of the key negative affects both eternal and emergent associated with climate change environmental destruction and cosmic solitude in so doing they unearth something so obvious that it has gone largely unnoticed the question of how we should feel about climate change between the information gathered by planetary sensors and the simple act of breathing the air new unsettling moods are produced for which we currently lack an adequate language should we feel grief over the loss of our planet or is the strange feeling of witnessing mass extinction an indicator that the planet was never ours to begin with sad planets explores this relationship between our all too human melancholia and a more impersonal sorrow nestled in the heart of the cosmic elements spanning a wide range of topics from the history of cosmology to the existential threat of climate change this book is a reckoning with the limits of human existence and comprehension as pettman and thacker observe never before have we known so much about the planet and the cosmos and yet never before have we felt so estranged from that same planet to say nothing of the stars beyond

elon musk named our final invention one of five books everyone should read about the future a huffington post definitive tech book of 2013 artificial intelligence helps choose what books you buy what movies you see and even who you date it puts the smart in your smartphone and soon it will drive your car it makes most of the trades on wall street and controls vital energy water and transportation infrastructure but artificial intelligence can also threaten our existence in as little as a decade ai could match and then surpass human intelligence corporations and government agencies are pouring billions into achieving ai's holy grail human level intelligence once ai has attained it scientists argue it will have survival drives much like our own we may be forced to compete with a rival more cunning more powerful and more alien than we can imagine through profiles of tech visionaries industry watchdogs and groundbreaking ai systems our final invention explores the perils of the heedless pursuit of advanced ai until now human intelligence has had no rival can we coexist with beings whose intelligence dwarfs our own and will they allow us to if you read just one book that makes you confront scary high tech realities that we'll soon have no choice but to address make it this one the washington post science fiction has long explored the implications of humanlike machines think of asimov's i robot but barrat's thoughtful treatment adds a dose of reality science news a dark new book lays out a strong case for why we should be at least a little worried the new yorker

presentation essay pre university from the year 2009 in the subject didactics for the subject english discussion and essays grade 1 willy brandt gymnasium oer erkenschwick language english abstract become a historical figure write what you want to say about the world state to people today an explanation a warning a cautionary tale ladies and gentlemen citizens of the united nations of the free world it is precisely four years ago that we first heard of the army of the fordist movement ever since our countries have been ravaged time and again by the most evil most cruel and inhuman terror attacks thousands of our innocent people have been victimized the blood of thousands of more people from all over the world has been shed
