examining some of the special ethical dimensions of work the contributors look at the basic issues of the labor market and offer some controversial alternatives to conventional ways of understanding that market morality and work confronts issues with a bold candid approach that is sometimes unsettling but always thought provoking

japan to 1600 surveys japanese historical development from the first evidence of human habitation in the archipelago to the consolidation of political power under the tokugawa shogunate at the beginning of the seventeenth century it is unique among introductory texts for its focus on developments that impacted all social classes rather than the privileged and powerful few in accessible language punctuated with lively and interesting examples william wayne farris weaves together major economic and social themes the book focuses on continuity and change in social and economic structures and experiences but it by no means ignores the political and cultural most chapters begin with an outline of political developments and cultural phenomena particularly religious beliefs are also taken into account in addition japan to 1600 addresses the growing connectedness between residents of the archipelago and the rest of the world farris describes how the early inhabitants of the islands moved from a forager mode of subsistence to a more predominantly agrarian base supplemented by sophisticated industries and an advanced commercial economy he reveals how the transition to farming took place over many centuries as people moved back and forth from settled agriculture

to older forager collector regimes in response to ecological political and personal factors economics influenced demographics and as the population expanded the class structure became increasingly complex and occupational specialization and status divisions more intricate along with this came trends toward more tightly knit corporate organizations village city market family and classes of servants slaves and outcastes formed in reflecting the diversity of traditional japan s economy and society japan to 1600 is well suited for both undergraduate and graduate courses and will be a welcome introduction to japan s early history for scholars and students of other disciplines and regions

csa sociological abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences the database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers

this truly monumental work maps the literature of women s studies covering thousands of titles and sites in 19 subject areas published between 1985 and 1999 intended as a reference and collection development tool this bibliography provides a guide for women s studies information for each title along with a detailed often evaluative review the annotations summarize each work s content its importance or contribution to women s studies and its relationship to other titles on the subject core titles and titles that are out of print are noted and reviews indicate which titles are appropriate as texts or supplemental texts this definitive guide to the literature of women s studies is a must purchase for academic libraries that support women s studies programs and it is a useful addition to any academic or public library that endeavors to represent the field a team of subject specialists has taken on the immense task of documenting publications in the area of women s studies in the last decades of the 20th century the result is this truly monumental work which maps the field covering thousands of titles and sites in 19 subject areas published between 1985 and 1999 intended as a reference and collection development tool this bibliography provides a guide for women s studies information for each title along with a detailed often evaluative review the annotations summarize each work s content its importance or contribution to women s studies and its relationship to other titles on the subject most reviews cite and describe similar and contrasting titles substantially extending the coverage core titles and titles that are out of print are noted and reviews indicate which titles are appropriate as texts or supplemental texts taking up where the previous volume by loeb searing and stineman left off this is the definitive guide to the literature of women s studies it is a must purchase for academic libraries that support women s studies programs and a welcome addition to any academic or public library that endeavors to represent the field

environmental law

while providing an innovative analysis of theoretical work in music and literary studies this title examines how traditional irish music including the related song tradition has influenced and is apparent in the work of irish poets

by the beginning of the twentieth century the united states had already become an international power and a recognized force at sea but its army remained little more than a frontier constabulary in fact when america finally entered world war i the u s army was still only a tenth the size of the smallest of the major european forces while most previous work on america s participation in the great war has focused on alliance with great britain robert bruce argues that the impact of the franco american relationship was of far greater significance he makes a convincing case that the french rather than the british were the main military partner of the united states in its brief but decisive participation in the war and that france deserves much credit for america s emergence as a world military power in this important new look at the first world war bruce reveals how two countries established a close and respectful relationship marking the first time since the american revolution that the united states had waged war as a member of a military coalition while general pershing s american expeditionary forces did much to buoy french morale and military operations france reciprocated by training over 80 percent of all american army divisions sent to europe providing most of their artillery and tanks and even commanding them in combat as bruce discloses virtually every military engagement in which the aef participated was a franco american operation he provides significant new material on all major battles not only the decisive second battle of the marne but also st mihiel cantigny reims soissons and other engagements detailing the key contributions of this coalition to the final defeat of imperial germany throughout the book he also demonstrates that there was a mutual bond of affection not only between french and american soldiers but between the french and american people as well with roots planted deep in the democratic ideal by revealing the overlooked importance of this crucial alliance a fraternity of arms provides new insights not only into world war i but into coalition war making as well contrary to the popular belief that relations between france and the united states have been tenuous or tendentious at best bruce reminds us that less than a century ago french and american soldiers fought side by side in a common cause not just as allies and brothers in arms but as true friends
