this handbook covers all major aspects of eu cohesion policy one of the most significant areas of intervention of the european union over five parts it discusses this policy s

history and governing principles the theoretical approaches from which it can be assessed the inter institutional and multi level dynamics that it tends to elicit its practical implementation and impact on eu member states its interactions with other eu policies and strategies and the cognitive maps and narratives with which it can be associated an absolute must for all students of the eu

the european union eu has emerged as a leading governing body in the international struggle to govern climate change the transformation that has occurred in its policies and institutions has profoundly affected climate change politics at the international level and within its 27 member states but how has this been achieved when the eu comprises so many levels of governance when political leadership in europe is so dispersed and the policy choices are especially difficult drawing on a variety of detailed case studies spanning the interlinked challenges of mitigation and adaptation this volume offers an unrivalled account of how different actors wrestled with the complex governance dilemmas associated with climate policy making opening up the eu s inner workings to non specialists it provides a perspective on the way that the eu governs as well as exploring its ability to maintain a leading position in international climate change politics
