the book deals with the relationship between friedrich meinecke who is often considered to be the leading german historian of the first half of the twentieth century and several of his students who after the nazi seizure of power were forced to emigrate because of their jewish descent or their political views the letters published here to meinecke from hans rothfels dietrich gerhard hajo holborn felix gilbert hans rosenberg and others show these scholars deep respect for their old teacher but also their growing distance from his historical interests and methods in a period of struggle between democracy and nazi dictatorship the letters address the problems of emigration and remigration german jewish and german american identity and historiography in both germany and the united states

the defeat of national socialism in 1945 was a pivotal point in central european history for the writing and practice of history however the event proved far less decisive in west germany and austria most historians who had taught under the nazis retained their positions after 1945 even those dismissed for their national socialist sympathies were often able to resume their careers and an entire generation of younger historians trained during the nazi years was to enter the historical profession after 1945 paths of continuity examines the effect of this professional continuity on west german historical scholarship and the impact of the third reich on the way german language historians practiced their craft the essays look at ten prominent german and austrian historians whose lives and work spanned the period before and after 1945 friedrich meinecke gerhard ritter hans rothfels franz schnabel heinrich ritter von Srbik hans freyer hermann aubin otto brunner werner conze and theodor schieder all responded to the nazi regime in different ways some willingly embraced the new order of national socialism others kept their distance from the regime or openly opposed it ironically however those who were least compromised by nazi involvements and who emerged after 1945 with the greatest moral and professional authority often proved the most resistant to change within the discipline conversely much of the impetus for scholarly innovation after 1945 came from historians with earlier ties to the anti liberal folk history of the nazi era exploring these and other paradoxes this collection of essays provides fresh insight into the development of german historical scholarship since 1945

the first intellectual history to study the ideal type of model building methodology of otto hintze 1861 1940 to western historical thought and to suggest that martin luther also held to a way that was deeply incarnational dynamic and or in with and under this dual vision and a lutheran ethos strongly influenced leibniz hamann and herder and was therefore a

matter of considerable significance for the rise of a distinctly modern form of historical consciousness in protestant germany smith s essay suggests a new time period for the formative age of modern german thought culture and education the cultural revolution in germany

includes entries for maps and atlases

some contributors address broad issues language and national identity the status of german as an international language language change and attempts to fix the form of the language and sociolinguistic variation while others examine topics of particular significance in the current sociopolitical climate

toshimasa yasukata offers a detailed study and interpretation of the german theologian ernst troeltsch discerning a systematic unity in his thought despite the obvious diversity of his interests and published works troeltsch is shown to be thoroughly consistent in exploring the possibility of establishing normative values in the face of the relativizing efforts of history in his closing remarks yasukata suggests the wide ranging significance of troeltsch s work for the future of theology
