this volume describes research focusing on changes in different dimensions of parenting and conceptions of parental authority during adolescence the seven chapters illuminate the dimensions of parenting that change or remain stable over the course of adolescence the chapters also highlight the importance of considering variations in parenting according to the different domains of adolescents lives their relationships to the development of responsibility autonomy and how these are influenced by socioeconomic status culture and ethnicity thus the chapters in this volume provide new directions for conceptualizing variations in parenting over the second decade of life and their implications for adolescent adjustment and well being the authors point to the need for developmentally sensitive models of parenting that consider changes within domains over time their influence on adolescent development and functioning and potential asynchronies between parents and adolescents this is the 108th volume of the jossey bass quarterly report series new directions for child and adolescent development

drawing from concepts in criminological literature and sociological life course perspective literature data from adolescent and young adult measurements collected as part of a longitudinal panel study conducted on a cohort from harris county texas were used to estimate structural equation models testing the unmediated and mediated relationships between adolescent deviance early timing of transitions to adult roles and adult deviance first a simplified three latent variable model was estimated using the full sample $n = 3\,379$ to examine direct associations among adolescent deviance early transitions to adulthood and adult deviance while controlling for prior involvement in deviant behavior in adolescence an expanded seven latent variable model was then estimated adding mechanisms in adolescence through which the relationships previously observed in the simplified model are mediated lastly both the simplified and expanded models were estimated on eight subgroups in the sample to examine whether the relationships observed for the full sample are moderated by gender race ethnicity paternal level of education and expectations for future failure in conventional adolescent roles for the full sample the simplified model produced significant direct relationships between adolescent deviance and early transitions to adulthood and between early transitions to adulthood and adult deviance when this simplified model was estimated on the eight subgroups the first relationship remained stable for each of the eight moderating subgroups while the second relationship did not when several intervening variables were added between adolescent deviance and early transitions to adulthood in the expanded model the parameters added to the model using the intervening variables formed a chain of significant direct relationships fully mediating the relationship between adolescent deviance and early transitions to adulthood for the full sample this chain of significant direct relationships remained stable for five of the eight subgroups and the three subgroups that did not experience full mediation underwent great attenuation of the relationship these intervening variables offer

avenues for altering the trajectory of behavior seen in the simplified model

comprehensive coverage of all aspects of deviance this book is noted for its blend of readability and scholarship deviant behavior covers a wide spectrum of theories of deviance and analyzes specific deviant behaviors the author utilizes an abundance of research data including much that debunks our common assumptions about deviant behavior thus readers are not only exposed to the full range of theories and data about deviance but are challenged to think about and evaluate their own biases and preconceptions for anyone interested in sociology and deviant behavior
