a robust theological argument against the assumption that god is male god values women while many christians would readily affirm this truth the widely held assumption that the bible depicts a male god persists as it has for centuries this misperception of christianity not only perniciously implies that men deserve an elevated place over women but also compromises the glory of god by making god appear to be part of creation subject to it and its categories rather than in transcendence of it through a deep reading of the incarnation narratives of the new testament and other relevant scriptural texts amy peeler shows how the bible depicts a god beyond gender and a savior who while embodied as a man is the unification in one person of the image of god that resides in both male and female peeler begins with a study of mary and her response to the annunciation through which it becomes clear that god empowers women and honors their agency then peeler describes from a theological standpoint how the virgin birth of jesus the second adam reverses the gendered division enacted in the garden of eden while acknowledging the significance of the bible s frequent use of father language to represent god as a caring parent peeler goes beneath the surface of this metaphor to show how god is never sexualized by biblical writers or described as being physically involved in procreation making the concept of a masculine god dubious at best from these doctrinal centers of christianity peeler leads the way in reasserting the value of women in the church and prophetically speaking out against the destructive idolatry of masculinity the michael ramsey prize longlist 2023

case studies upon the use of concepts like feminization and masculinization in relation to christianity since the 1970s the feminization thesis has become a powerful trope in the rewriting of the social history of christendom however this thesis has triggered some vehement debates given that men have continued to dominate the churches and the churches themselves have reacted to the association of religion and femininity often formulated by their critics by explicitly focusing their appeal to men in this book the authors critically reflect upon the use of concepts like feminization and masculinization in relation to christianity

deborah sawyer discusses this crucial yet unresolved question in the context of contemporary and postmodern ideas about gender and power based on fresh examination of a number of texts from hebrew and christian scripture such texts offer striking parallels to contemporary gender theories particularly those of luce irigaray and judith butler which have unravelled given notions of power and constructed identity through the study of gender in terms of its application by biblical writers as a theological strategy we can observe how these writers use female characters to undermine human masculinity through their higher intention to elevate the biblical god god gender and the bible demonstrates that both maleness and femaleness are constructed in the light of divine omnipotence unlike many approaches to the bible that offer hegemonist interpretations such as those that are explicitly christian or jewish or liberationist or feminist this enlightening and readable study sustains and works with the inconsistencies evident in biblical literature
