the mini green book about the west nordic renewable resources and the perspectives for their use is a short presentation and description of the west nordic sparsely populated regions energy supply and the possibilities for a change towards greater use of renewable energy sources it is the foundation for discussions in the nordic council of ministers concerning nordic energy co operation and research and is a catalyst for establishing contacts with the nordic countries neighbours about an extended energy co operation for the areas and regions that are characterised by being sparsely populated and

having widely spaced local communities the information shows that the west nordic countries collectively represent a broad spectrum of renewable energy sources and there is great potential for greater utilisation of them
