a deep and widespread crisis affects modern economic theory a crisis that derives from the absence of a vision a set of widely shared political and social

preconceptions on which all economics ultimately depends this absence in turn reflects the collapse of the keynesian view that provided such a foundation from 1940 through the early 1970s comparable to earlier visions provided by smith ricardo mill and marshall the unraveling of keynesianism has been followed by a division into discordant and ineffective camps whose common denominator seems to be their shared analytical refinement and lack of practical applicability this provocative analysis attempts both to describe this state of affairs and to suggest the direction in which economic thinking must move if it is to regain the relevance and remedial power it now pointedly lacks

principles of economics first published in 1890 went through eight editions and is considered the most important treatise of 19th century and beyond it gave some landmark concepts like consumer surplus producer surplus price elasticity of demand and the idea of three periods viz market period short period and long period the concept of national dividend given in the principles is not a mere academic toy but a practical instrument of great power designed for service in the concrete solution of social problems marshall s theoretic discussion follows the lines of the mathematical treatment of cournot and others more particularly in his discussion of the doctrines of value cost exchange and distribution he has used diagrams and formulae for purposes of illustration and for greater precision of statement book jacket
