winner 2020 isaac and tamara deutscher memorial prize a fascinating reinterpretation of the radical and socialist origins of ecology twenty years ago john bellamy foster s marx s ecology materialism and nature introduced a new understanding of karl marx s revolutionary ecological materialism more than simply a study of marx it commenced an intellectual and social history encompassing thinkers from epicurus to darwin who developed materialist and ecological ideas now with the return of nature socialism and ecology foster continues this narrative in so doing he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today s unprecedented planetary emergencies the return of nature begins with the deaths of darwin 1882 and marx 1883 and moves on until the rise of the ecological age in the 1960s and 1970s foster explores how socialist analysts and materialist scientists of various stamps first in britain then the united states from william morris and frederick engels to joseph needham rachel carson and stephen j gould sought to develop a dialectical naturalism rooted in a critique of capitalism in the process he delivers a far reaching and fascinating reinterpretation of the radical and socialist origins of ecology ultimately what this book asks for is nothing short of revolution a long ecological revolution aimed at making peace with the planet while meeting collective human needs

volumes 33 38 section b include 1949 1955 of new zealand geological abstracts published by the new zealand geological survey

the handbook of vegetation science is growing after the first volumes und er my editorship have appeared the interest of the scientific community has been revived and many new volume editors have started their work the present volume wasjointly designed by drs j white and w beeftink due to unforseen developments dr white signs now as the sole editor the development of this volume within the series had a special history as dr white pointsout in his preface adding to this i need only to state that i found it essential to include the topic of this volume into a hand book of vegetation science it was included therefore in my first revised iist of topics to be included in the handbook when i took over from dr tüxen it is a great pleasure for me to see this volume appear having read through the many contributions to this volume i can certainly congratu late drs white and beeftink for their success in generating so much interest in this volume among their

colleagues the cooperation on this volume is forme the first sign that the new concept of the handbook has been understood by the generation of scientists which i have to address the influence this volume will have on the field of plant population studies only time can tell it appears to me however that this volume will become a standard resource for some future dr white asked me to have this volume dedicated to dr rabotnov
