the main theme of this literary work examines avarice insatiable greed and abysmal voracity of those individuals who under the guise of serving god serve their own vested interest this documented book exposes such people who achieve almost everything to fill their coffers and to vent their hatred through deceit and the obfuscation of the public it is a known fact that the majority of the televangelists commenced life modestly most of them devoid of any academic erudition in theology but with some certification from unrecognized seminaries spread throughout the country wherever

they reside what captivated my interest in writing this book is the unscrupulous methods that such people have employed to accumulate unjustified immense wealth and properties just through the art of obfuscation deceit and false promises of invoking god to heal the sick and dying for a fee a fee that would leave them unhealed and poverty stricken

a sunday times bestseller an economist best book of the year the celebrated historian and journalist uncovers the networks trying to destroy the democratic world all of us have in our minds a cartoon image of what an autocratic state looks like with a bad man at the top but in the 21st century that cartoon bears little resemblance to reality nowadays autocracies are run not by one bad guy but by sophisticated networks composed of kleptocratic financial structures security services and professional propagandists the members of these networks are connected not only within a given

country but among many countries the corrupt state controlled companies in one dictatorship do business with corrupt state controlled companies in another the police in one country can arm equip and train the police in another the propagandists share resources the troll farms that promote one dictator s propaganda can also be used to promote the propaganda of another and themes pounding home the same messages about the weakness of democracy and the evil of america unlike military or political alliances from other times and places this group doesn t operate like a bloc but rather like an agglomeration of companies autocracy inc their relations are not based on values but are rather transactional which is why they operate so easily across ideological geographical and cultural lines in truth they are in full agreement about only one thing their dislike of us the inhabitants of the democratic world and their desire to see both our political systems and our values undermine that shared understanding of the world where it comes from why it lasts how it works how the democratic world has unwittingly helped to consolidate it and how we can help bring it down is the subject of this book
