in this ground breaking book on the children of affluence a well known clinical psychologist exposes the epidemic of emotional problems that are disabling america s privileged youth thanks in large part to normalized intrusive parenting that stunts the crucial development of the self in recent years numerous studies have shown that bright charming seemingly confident and socially skilled teenagers from affluent loving families are experiencing epidemic rates of depression substance abuse and anxiety disorders rates higher than in any other socioeconomic group of american adolescents materialism pressure to achieve perfectionism and disconnection are combining to create a perfect storm that is devastating

children of privilege and their parents alike in this eye opening provocative and essential book clinical psychologist madeline levine explodes one child rearing myth after another with empathy and candor she identifies toxic cultural influences and well intentioned but misguided parenting practices that are detrimental to a child s healthy self development her thoughtful practical advice provides solutions that will enable parents to help their emotionally troubled star child cultivate an authentic sense of self

prior to the dissolution of the communist state utility prices were driven by political priorities in central and eastern europe and the former soviet union utility prices were kept artificially low until the early 1990s when the cost of these across the board price subsidies became unaffordable one government after another decided to bring residential tariffs closer to supply costs the resulting price adjustment process however turned out to be more painful than originally expected required large increase in the prices of utility services coincided with a decrease in household income the household income decline paralleled increasing income polarization as a result of these two trends the percentage of the poor within the overall population reached alarming proportions in many countries paying utility bills became a major challenge for the rapidly growing army of poor households some governments simply pressured utility managers to be lenient with households who did not pay their utility bills by the middle of the 1990s most governments recognized that they could not afford leniency they started to experiment with various subsidy schemes aimed at low income households to help decision makers choose the best mechanism that suits their specific needs and priorities maintaining utility services for the poor provides a conceptual framework and methodology for the evaluation of utility subsidy mechanisms it also presents the results of applying this methodology in poland and russia
