karl is an abyssinian ground hornbill with a special challenge his lower bill had broken off and made eating difficult karl did a great job of adapting and finding new ways to eat but he wasn t getting all the food he needed his zookeepers at the national zoo and friends at the smithsonian institute wanted to help could an old bird skeleton and a 3 d printer give karl a new beak karl s new adventure was about to begin

should the arts receive public support can the arts survive in a modern capitalist society can economics shed light on the nature of public support and whether there is a rationale for public intervention this book undertakes to examine these questions as it explores the ways government and public resources are used to support the arts this book applies a veblenian approach to understanding economic development to investigate public support for the arts in an effort to determine whether this approach can elucidate economic rationales for public support divided into three parts the first provides basic information on public support for the arts by surveying support in the united states and australia part two includes a neoclassical overview of the topic while part three presents veblen s ideas on economic development this book will be of interests to researchers concerned with cultural and institutional economics as well as political economy

a financial times most anticipated book of 2025 a sweeping dramatic history of capitalism as seen through the eyes of its fiercest critics at a time when artificial intelligence climate change inequality trade wars and a right wing populist backlash to globalization are raising fundamental questions about the economic system capitalism and its critics provides a kaleidoscopic history of global capitalism from the east india company and industrial revolution to the digital revolution but here john cassidy a staff writer at the new yorker and a pulitzer prize finalist adopts a bold new approach he tells the story through the eyes of the system s critics from the english luddites who rebelled against early factory automation to communists in germany and russia in the early twentieth century to the latin american dependistas the international wages for housework campaign of the 1970s and the modern degrowth movement the absorbing narrative traverses the globe it visits with familiar names smith marx luxemburg keynes polanyi but also focuses on many less familiar figures including flora tristan the french proponent of a universal labor union thomas carlyle the conservative prophet of the moral depredations of the market john hobson the original theorist of imperialism j c kumarappa the indian exponent of gandhian economics eric williams the trinidadian author of a famous thesis on slavery and capitalism joan robinson the cambridge economist and critic of keynes and samir amin the leftist french egyptian economist and analyst of globalization blending rich biography panoramic history and lively exploration of economic theories capitalism and its critics is true big history that illuminates the deep roots of many of the most urgent issues of our time
