in starting a new enterprise one must be able to both plan and realize their initial goal this book provides the budding entrepreneur with the essentials needed to draw up and execute a successful business plan the implementation of the many methods presented in this title have been exercised for years both in practice and in real world management consulting situations by laying out a straightforward blueprint for the reader this title's pragmatic emphasis and autodidactic approach allows for easy absorption of the necessary skills and tools required for the

planning and development of a new business venture each section of the book closes with a set of key questions thusly providing a roadmap for building a successful business from the planning stage to successful marketing to finding investors it is with this book s method that the reader is able to weigh the real risks associated with business formation

philip kotler is s c johnson son distinguished professor of international marketing at the kellogg graduate school of management northwestern university gary armstrong is crist w blackwell distinguished professor emeritus of undergraduate education in the kenan flagler business school at the university of north carolina at chapel hill lloyd c harris is head of the marketing department and professor of marketing at birmingham business school university of birmingham his research has been widely disseminated via a range of marketing strategy retailing and general management journals hongwei he is professor of marketing at alliance manchester business school university of manchester and as associate editor for journal of business research

inhaltsgabe abstract in the real world all customers are not created equal this allusion to the declaration of independence captures a recent realisation of many companies different customers represent different values to a company in fact many companies are discovering that a large percentage of their customers are generating losses xy insurance is among those companies that recently discovered a considerable portion of unprofitable customers in their current book of business this was identified as a major problem especially considering the fact that the company is converting to a publicly traded stock company given the necessity to produce shareholder value senior management realised that it would be indispensable to ensure the profitability of its accounts one of the factors underlying this problem at xy is the lack of a screening process to ensure the selection of customers with whom a profitable relationship can be built to address this need xy s senior management decided that it would be necessary to develop a tool that enables the sales staff to evaluate customers and ultimately to select customers based on this assessment the objective of this study is the development of a screening tool which can be used as a basis for the selection of xy s customers in the company s arge case segment the development of the tool is limited to one of the company s segments because the customers as well as the products differ greatiy by segment the tool should enable the company to assess their clients individually and classify each of them as attractive or unattractive so that proper strategies can be applied the strategy development lies outside of the confines of this study and is therefore

not discussed in this paper i will however indicate starting points and some important issues when designing these strategies in addition considerations in conjunction with the implementation and introduction process as well as avenues for further research are addressed where appropriate while the initial idea behind the development of the screening tool was to design a mechanism that would allow for the assessment of all of xy s customers existing and prospective it became apparent that this would not be feasible separate tools for both stages are needed as a result it was decided that a model outlining the needed criteria would be developed and based on this a screening tool for prospective clients would be built the

peopling marketing organization and technology takes an interactionist attitude to study the organization of marketing interaction and the embedding of technology within that organization by analysing clear illustrative studies this book explicates the interactionist attitude and demonstrates that production placing promotion and pricing are achieved in and through marketing interaction the studies investigate marketing interaction on street markets decision making about the digitalization of supermarkets the design of exhibitions and social media to generate memorable experiences the interactive experiencing of exhibits and the development of guiding visions in the promotion of virtual reality the analyses reveal the practical and social organization of actions through which marketing and consumption are accomplished by using different interactionist research methods they show the contribution research using the interactionist attitude can make to marketing and consumer research as well as to interactionist sociology concerned with marketing interaction aimed at academics researchers and students in the fields of marketing and consumer research as well as in social psychology and sociology this book will encourage scholars and students in marketing and consumer research to shift their focus from the symbolic to marketing interaction
