starting in 1970 jean genet petty thief prostitute modernist master spent two years in the palestinian refugee camps in jordan always an outcast himself genet was drawn to this displaced people an attraction that was to prove as complicated for him as it was enduring prisoner of love written some ten years later when many of the men genet had known had been killed and he himself was dying is a beautifully observed description of that time and those men as well as a reaffirmation of the author s commitment not only to the palestinian revolution but to rebellion itself for genet s most overtly political book is also his most personal the last step in the unrepentantly sacrilegious pilgrimage first recorded in the thief s journal and a searching meditation packed with visions ruses and contradictions on such life and death issues as the politics of the image and the seductive and treacherous character of identity genet s final masterpiece is a lyrical and philosophical voyage to the bloody intersection of oppression terror

and desire at the heart of the contemporary world

over the past decade the political ground beneath the middle east has shifted arab nationalism the political orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation at the same time islam as an ideology has spread across the region and islamists bid to capture the center of politics most western scholars and experts once hailed the redemptive power of arabism arab awakening and islamic revival is a critical assessment of the contradictions of arab nationalism and islamic fundamentalism and the misrepresentation of both in the west the first part of the book argues that arab nationalism the so called arab awakening bore within it the seeds of its own failure arabism as an idea drew upon foreign sources and resources even as it claimed to liberate the arabs from imperialism it deepened intellectual dependence upon the west s own romanticism and radicalism ultimately arab nationalism became a force of oppression rather than liberation and a mirror image of the imperialism it defied kramer s essays together form the only chronological telling and the at fully documented postmortem of arabism the second part of the book examines the similar failings of islamism whose ideas are islamic reworkings of western ideological radicalism its effect has been to give new life to old rationales for oppression authoritarianism and sectarian division arab awakening and islamic revival provides an alternative view of a century of middle eastern history as the region moves fitfully past ideology kramer s perspective is more compelling than at any time in the past in western academe no less than among many in the middle this book will be of interest to sociologists political scientists economists and middle east specialists

pierre nora s concept lieux de m^{emoire} realms of memory has become arguably the most significant academic point of reference when discussing building and their interconnectedness with history and collective memory although his theory has acquired popularity well beyond its application to the french context his influential seven volume series 1984 92 is not without its own shortcomings and failures which have only occasionally been exposed over the last two decades it is not until the recent publication of postcolonial realms of memory liverpool university press 2020 that we see an expansive critique of nora s own selective memory our project seeks to continue challenging nora s approach and france s national narrative by providing space to examine queer lives cultures and memories we contend however that those related to queer experiences within france s collective memory have almost never been addressed queer realms of memory is the first book length study to question nora s lack of engagement with queer french and francophone cultures and histories
