doe eia 0484 2013 presents an assessment by the energy information administration of the outlook for international energy markets through 2040 the international energy outlook 2013 ieo2013 projects that world energy consumption will grow by 56 percent between 2010 and 2040 total world energy use rises from 524 quadrillion british thermal units btu in 2010 to 630 quadrillion btu in 2020 and to 820 quadrillion btu in 2040 figure 1 much of the growth in energy consumption occurs in countries outside the organization for economic cooperation and development oecd 2 known as non oecd where demand is driven by strong long term economic growth energy use in non oecd countries increases by 90 percent in oecd countries the increase is 17 percent the ieo2013 reference case does not incorporate prospective legislation or policies that might affect energy markets

providing a detailed survey of renewable raw materials for paints inks and glues this book is ideal for researchers and practitioners working in the areas of green chemistry industrial chemistry and sustainability beginning with a brief history of coatings and adhesives this book walks the reader through the chemistry properties sourcing and processing of a number of renewable raw materials including lipids natural resins proteins and carbohydrates their use in a range of recent developments and concepts from material protection to decorative paints and coatings adhesives and sealants is highlighted providing the reader with a complete and modern foundation to the field

in this book a quantitative dynamic model is developed to explain and explore the diffusion of green new products in a business to business b2b context considering the case of emerging bioplastics this goal is reached through a mixed methods design combining qualitative and quantitative methods over three phases after an interview study with key value chain actors an experimental vignette technique is applied to further study relevant factors in the micro firm level adoption process integrating the empirical findings the diffusion model is developed and simulated at the macro industry level using a system dynamics sd approach results explain the underlying dynamics and critical conditions for adoption to become self sustaining

a 2020 spe outstanding book award winner a 2019 aesa critic s choice award winner conservative ideologues have sought to shift the focus from the collective good to the individual good and to redirect the purposes and aims of education away from public benefit and in favor of private enterprise as such market oriented privatized and standardized approaches to education reform have worked toward achieving that goal this book is a primer on how the political right is utilizing various aspects of philanthropy and the political process to influence educational policymaking in 1971 corporate lawyer and future u s supreme court justice lewis powell wrote a detailed memo that galvanized a small group of conservative philanthropists to create an organizational structure

and fifty year plan to alter the political landscape of the united states funded with significant dark money the fruits of their labor are evident today in the current political context and sharp cultural divisions in society philanthropy hidden strategy and collective resistance examines the ideologies behind the philanthropic efforts in education from the 1970s until today authors examine specific strategies philanthropists have used to impact both educational policy and practice in the u s as well as the legal and policy context in which these initiatives have thrived the book aimed for a broad audience of educators provides a depth of knowledge of philanthropic funding as well as specific strategies to incite collective resistance to the current context of hyperaccountability privatization of schooling at all levels and attempts to move the u s further away from a commitment to the collective good perfect for courses such as critical and contemporary issues in education education policy educational policy analysis social foundations of education philanthropy public policy community change philanthropic studies sociology of education politics of education current issues in education government and the mass media polarization of american politics

winner of the lillian smith book award winner of the los angeles times book prize finalist for the national book award the nation s most valuable book a vibrant intellectual history of the radical right the atlantic this sixty year campaign to make libertarianism mainstream and eventually take the government itself is at the heart of democracy in chains if you re worried about what all this means for america s future you should be npr an explosive expos[2] of the right s relentless campaign to eliminate unions suppress voting privatize public education stop action on climate change and alter the constitution now updated with a new preface behind today s headlines of billionaires taking over our government is a secretive political establishment with long deep and troubling roots the capitalist radical right has been working not simply to change who rules but to fundamentally alter the rules of democratic governance but billionaires did not launch this movement a white intellectual in the embattled jim crow south did democracy in chains names its true architect the nobel prize winning political economist james McGill Buchanan and dissects the operation he and his colleagues designed over six decades to alter every branch of government to disempower the majority in a brilliant and engrossing narrative nancy maclean shows how Buchanan forged his ideas about government in a last gasp attempt to preserve the white elite s power in the wake of brown v board of education in response to the widening of american democracy he developed a brilliant if diabolical plan to undermine the ability of the majority to use its numbers to level the playing field between the rich and powerful and the rest of us corporate donors and their right wing foundations were only too eager to support Buchanan s work in teaching others how to divide america into makers and takers and when a multibillionaire on a messianic mission to rewrite the social contract of the modern world charles koch discovered Buchanan he created a vast relentless and multi armed machine to carry out Buchanan s strategy without Buchanan s ideas and koch s money the libertarian right would not have succeeded in its stealth takeover of the republican party as a delivery mechanism now with mike pence as vice president the cause has a longtime loyalist in the white house not to mention a phalanx of republicans in the house the senate a majority of state governments and the courts all carrying out the plan that plan includes harsher laws to undermine unions privatizing everything from schools to health care and social security and keeping as many of us as possible from voting based on ten years of unique research democracy in chains tells a chilling story of right wing academics and big money run amok this revelatory work of scholarship is also a call to arms to protect the achievements of twentieth century american self government
