gain a greater understanding of cardiovascular medicine and sharpen your board preparation skills with the only review based on the content of *Hurst's The Heart*. *Cardiology Board Review and Self Assessment* is an all inclusive study guide and learning tool written to complement the fourteenth edition of *Hurst's The Heart*, the field's cornerstone text and the resource considered by many to be the pinnacle of cardiovascular knowledge. *Cardiology Board Review and Self Assessment* contains more than 1,100 carefully selected questions and answers presented in multiple choice format. Each of the 112 chapters of *Hurst's The Heart* is represented in this unique review with ten multiple choice questions. Detailed answers are provided for each question including not only an explanation of why the correct answer is correct but also why the incorrect answers are incorrect. Here's why this is the ultimate board review and cardiology learning tool: questions and answers correspond to appropriate sections of *Hurst's The Heart* and include valuable tables, figures, images and references. The more than 1,100 questions span the depth and breadth of the entire field of cardiovascular medicine. High yield material is specifically selected for board relevance. Includes content based on ACC/AHA and ESC guidelines. *Cardiology Board Review and Self Assessment*, a companion guide to *Hurst's The Heart*, is essential reading for anyone preparing to take the subspecialty examination in cardiovascular disease given by the board of internal medicine as well as practicing cardiologists preparing for recertification. It is also of value to medical students, residents, fellows, practicing physicians and other healthcare professionals who wish to expand their knowledge of cardiovascular medicine.

providing a complete but succinct overview of the information cardiologists and cardiology trainees need to have at their fingertips. *Practical Cardiovascular Medicine*, second edition, is an everyday primary guide to the specialty. Provides cardiologists with a thorough and up to date review of cardiology from pathophysiology to practical evidence based management. Adeptly synthesizes pathophysiology, fundamentals and evidence based approaches to prepare a physician for a subspecialty career in cardiology. Clinical chapters cover coronary artery disease, heart failure, arrhythmias, valvular disorders, pericardial disorders, congenital heart disease and peripheral arterial disease. Practical chapters address ECG, coronary angiography, catheterization techniques, echocardiography, hemodynamics and electrophysiological testing. Includes over 730 figures, key notes boxes, references for further study and coverage of clinical trials. Review questions help clarify topics and can be used for board preparation. Over 650 questions in all. The second edition has been comprehensively updated with the newest data and with both the American and European guidelines. More specifically, 20 clinical chapters have been rewritten and extensively revised. Procedural chapters have been enhanced with additional concepts and

illustrations particularly the hemodynamic and catheterization chapters clinical questions have been revamped new questions have been added including a new 259 question section at the end of the book practical cardiovascular medicine second edition is an ideal reference for the resident fellow cardiologist and any professional treating patients with cardiovascular disease
