human security is a new paradigm for security development and justice since it was first proposed in the 1990s there has been an endless debate between its proponents and critics and even among its advocates over the meaning and utility of the concept what is important now is to move the concept beyond the realm of

theory and explore its practical applications considering possible policy perspectives and implications this book suggests new practical applications of the human security concept such as human security mapping the human security governance index and human security impact assessment using northeast india and orissa as case studies the methodology introduced in this path breaking book can be applied to conflict zones worldwide by designating the individual rather than the state as the referent object of security human security is emerging as a framework that can serve as a means to evaluate threats foresee crises analyze causes of discord and propose solutions entailing a redistribution of responsibilities

human security refers in its broadest sense to the protection of individuals from harm human security theory and action explores the theory and application of concepts central to this notion of security it examines the conceptual roots of human security connecting its origins to its applications and challenges in war and peacetime with a unique focus on the evolving notion of responsibility for security the text introduces the critical questions and priorities that underpin policies and actions the text is organized around four sections the introduction offers an overview of human security and its basic tenets and historical foundations the second section focuses on human security in armed conflict and post conflict reconstruction discussing such issues as the doctrine of responsibility to protect racial inequality peacekeeping and peace negotiation processes and humanitarian assistance the third section identifies the long term issues that are necessary for a durable human security including human rights food security poverty gender equality health security and environmental sustainability the final section applies the concepts introduced in the book to twenty first century concerns and offers insights on turning theory into action integrated into the text are many case studies to broaden the student s awareness beyond the conflicts and issues that dominate the media by balancing theoretical explanations with concrete illustrative cases both historical and contemporary the text provides intellectually challenging and intrinsically interesting material and offers a unique comprehensive introduction human security in war and peace the second edition of human security theory and action examines the conceptual roots of human security connecting its origins to its application in a time of conflict inequality environmental stress and the aftermath of a global pandemic

in 1994 the united nations development program undp coined the term human security in the seminal undp human development report this report approached security for the first time from a holistic perspective security would no longer be viewed from a purely military perspective but rather it would encapsulate economic food health environmental personal community and political security although the concept of human security accords a higher status to individual interests rather

than to governmental interests human security discourses have continually emphasized the central role of states as providers of human security this volume challenges this paradigm and highlights the part played by non state actors in threatening human security as well as in rescuing or providing relief to those whose human security is endangered the book does so from a legal perspective international law being one of the instruments used to realize human security as well as being a material source or guiding principle for the formation of human security enhancing policies in particular the book critically discusses how various non state actors such as armed opposition groups multinational corporations private military security companies non governmental organizations and national human rights institutions participate in the construction of such policies and how they are held legally accountable for their adverse impact on human security series international law vol 12

the world turned topsy turvy after covid 19 pandemic the whole equation and thrust of global politics and economics is now at a new verge the main question is now how we can secure human race and humanity this is the main thrust of the book changing dimensions of human security in contemporary world this book is an outcome of collective research work done by erudite scholars from different parts of world like usa russia japan australia romania nigeria nepal bangladesh and india who has come together in search of new trends of human security they touched upon different milieu as well as dimensions of human security and pandemic in contemporary world scenario in thirty two essays forty seven authors collectively explored situation of human security in several domains including international politics law economy labour force sustainable development education gender and may more i believe that this collection of essays can become a benchmark for the future as well as spur new research agendas and projects that will put the region into a much needed conversation on the recent trends of human security in contemporary world this book will try to reimagining this changing dimension of human security in the pandemic situation the goal of this book is to improve the standards of the international community of academicians researchers scholars and scientists by exposing them to the latest trends developments and challenges in the field the volume is essential reading for social scientists bureaucrats and non governmental political activists interested in human security it will also appeal to public policy analysts and scholars who have yet to adopt the contribution of critical security and development studies in the analysis of different dimensions of human security

the book asserts that human security derives from the experience and expectation of human well being which depends on four essential conditions a life sustaining environment the meeting of essential physical needs respect for the identity and

dignity of persons and groups protection from avoidable harm and expectations of remedy from them the book demonstrates their integral relationship to human security patriarchy being the germinal paradigm from which most major human institutions such as the state the economy organised religions and social relations have evolved the book argues that fundamental inequalities must be challenged for the sake of equality and security the fundamental point raised is that expectation of human well being is a continuing cause of armed conflict which constitutes a threat to peace and survival of all humanity and human security cannot exist within a militarised security system the editors of the book bring together 14 essays which critically examine militarised security in order to find human security pathways show ways in which to refute the dominant paradigm indicate a clear gender analysis that challenges the current system and suggests alternatives to militarised security with a mix of female and male feminist scholar activists as contributors the book makes an important contribution to a new discourse on human security

this book discusses human security from a theoretical perspective it builds theories in order to understand a phenomenon in a structured and well ordered way it sheds light on the conditions of the economy food health community environmental and political security in asian states it explores the idea of human security to understand the issues jeopardizing an individual s security in the asian continent and suggests policies to overcome these problems this book argues that the nature of the government and the constitution are equally essential in ensuring the human security of a country some countries in asia are not only economically vulnerable but also politically disrupted the issues of hunger poverty illiteracy militancy terrorism and ethnoreligious conflicts have posed threats to human security the pandemic covid 19 has brought a great humanitarian crisis the role of the asian states in combatting covid 19 and protecting public health is highlighted in this book with a multidimensional outlook this edited volume attempts to delineate an interdisciplinary discourse of human security in an asian context

a hard headed analysis of the role of the un in translating ideas about human security from theory into practice

in the context of the covid 19 pandemic this edited volume revisits the framework of human security and development it examines the protection empowerment nexus as applied to various vulnerable groups and populations affected by the pandemic while the conventional human security literature has focused on top down protection this book offers new perspectives on human security by exploring bottom up empowerment from both theoretical and practical perspectives it also encourages readers to rethink the agency of vulnerable people in addressing the

challenges posed by the pandemic through eight case studies from southeast asia and japan the contributors to this book demonstrate the importance of empowerment in achieving human security they focus on the responses of vulnerable groups and communities to multiple threats to their lives livelihoods and dignity the chapters discuss key human security concerns such as poverty the environment food forced migration gender health aging peace and justice all of which have been compounded and exacerbated by the covid 19 pandemic an essential resource for students and scholars of human security in the aftermath of covid 19 and its wider impacts the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license funded by jica ogata sadako research institute for peace and development

this handbook will serve as a standard reference guide to the subject of human security which has grown greatly in importance over the past twenty years human security has been part of academic and policy discourses since it was first promoted by the undp in its 1994 human development report filling a clear gap in the current literature this volume brings together some of the key scholars and policy makers who have contributed to its emergence as a mainstream concept including nobel prize winner amartya sen and sadako ogata who jointly chaired the 2001 commission on human security drawing upon a range of theoretical and empirical analyses the handbook provides examples of the use of human security in policies as diverse as disaster management arms control and counter terrorism and in different geographic and institutional settings from asia to africa and the un it also raises important questions about how the concept might be adapted and operationalised in future over the course of the book the authors draw on three key aspects of human security thinking theoretical issues to do with defining human security as a specific discourse human security from a policy and institutional perspective and how it is operationalised in different policy and geographic contexts case studies and empirical work featuring some of the leading scholars in the field the routledge handbook of human security will be essential reading for all students of human security critical security conflict and development peace and conflict studies and of great interest to students of international security and ir in general

in africa various conditions pose pervasive threats to human security addressing these threats and promoting human security therefore constitute formidable challenges as the paradigmatic shift in the discourse on and practice of human security has led to a change in the normative emphasis from sovereignty and non intervention to responsibility and international humanitarian and human rights norms questions arise not only as to the relationship between human security and

human rights but also as to the contribution of the human rights system in addressing human security threats and promoting human freedom what tools does the african human rights system have at its disposal that can be used in the promotion of human security on the continent what are the roles of the african commission and the ahrc in this regard what are the potentials and the challenges how best can these human rights bodies be employed to optimise their contributions to addressing the pervasive human security threats and to promoting the well being of individuals and communities on the continent this monograph investigates these and similar issues including the basic one of the interface between human rights and human security

the concept of human security is a new approach to security that focuses on the individual human being and provides policy alternatives to the traditional state centred view which considers the state to be the only and ultimate referent of security formally introduced into the united nations system in 1994 the concept s intellectual roots draw from international humanitarian law human rights and human development and since its introduction human security has been progressively integrated into the international security discourse mainstreaming human security policies problems potential paints a comprehensive picture of the relevance of the concept of human security in practice in a time of changing security paradigms and a challenging international environment this volume looks at the practical implications of mainstreaming human security it focuses on the potential problems and policies of human security in peace operations and crisis management operations of the united nations and of the european union topics addressed by the contributors include mainstreaming human rights and human security in peace and crisis management in general and the role of human security in the eu s common security and defence policy security sector reform restorative responses to human rights violations by peacemakers human security in serbia and in african peace operations as well as proposals for human security training the contributions to the book focus equally on mainstreaming human security in the un and in the eu context the global issues discussed and conclusions drawn are of relevance for the future of security addressed by peace and crisis management operations all over the world

the covid 19 global pandemic has triggered health insecurity food insecurity and economic insecurity among many others in south asia it has profound impact on every sector of human activities ranging from the economic to environment there is a need for a critical study of the implications of the covid 19 pandemic for human security in order to fathom the emerging theoretical and policy issues in the region hence the book provides an understanding of the consequences of the covid 19 global pandemic for human security in south asia this intellectually stimulating

book provides a critical analysis and insights on this contemporary challenge to policy makers health professionals academics students researchers ngo workers working with health human security and anyone interested in health and human security in south asia the book covers major human security areas i e health security food security economic security and environment issue the role of regional cooperation and global health governance is also covered in the domain of covid 19 this book fills the existing knowledge gap on the human security in south asia in general and linking with covid 19 in particular from the perspective of policy the insights of the study would guide the policy makers in south asia in reframing their security policies emphasising human security issues and challenges finally this book contributes to the evolving debate and discourse on the impact of the covid 19 on the south asian region from a human security perspective

the term polarization describes the widening gaps in national economies sociocultural views and political beliefs ideological differences in politics can be a sign of it resulting in impasse and a decline in confidence in democratic institutions in terms of the economy globalization exacerbates disparities between rich and poor regions while polarization exacerbates wealth gaps and opportunity disparities social polarization breeds mistrust and intolerance leading to identity based disputes and further splintering society although globalization encourages integration and connectivity it has also heightened polarizing tendencies it exacerbates international instability fuels trade disputes and expands the wealth gap between the rich and the poor traditions and values are eroding as a result of cultural globalization in this respect globalization must be used to promote inclusivity tolerance and cross national cooperation in order to combat polarization

deliberately challenging the traditional state centric analysis of security this book focuses on subnational and transnational forces religious and ethnic conflict climate change pandemic diseases poverty terrorism criminal networks and cyber attacks that threaten human beings and their communities across state borders examining threats related to human security in the modern era of globalization reveron and mahoney norris argue that human security is national security today even for great powers this fully updated second edition of human and national security understanding transnational challenges builds on the foundation of the first published as human security in a borderless world while also incorporating new discussions of the rise of identity politics in an increasingly connected world an expanded account of the actors institutions and approaches to security today and the ways diverse global actors protect and promote human security an essential text for security studies and international relations students human and national security not only presents human security challenges and their policy implications it also highlights how governments societies and international forces can and do take

advantage of possibilities in the contemporary era to develop a more stable and secure world for all

there is a real security gap in the world today millions of people in regions like the middle east or east and central africa or central asia where new wars are taking place live in daily fear of violence moreover new wars are increasingly intertwined with other global risks the spread of disease vulnerability to natural disasters poverty and homelessness yet our security conceptions drawn from the dominant experience of world war ii and based on the use of conventional military force do not reduce that insecurity rather they make it worse this book is an exploration of this security gap it makes the case for a new approach to security based on a global conversation a public debate among civil society groups and individuals as well as states and international institutions the chapters follow on from kaldors path breaking analysis of the character of new wars in places like the balkans or africa during the 1990s the first four chapters provide a context they cover the experience of humanitarian intervention the nature of american power the new nationalist and religious movements that are associated with globalization and how these various aspects of current security dilemmas have played out in the balkans the last three chapters are more normative dealing with the evolution of the idea of global civil society the relevance of just war theory in a global era and the concept of human security and what it might mean to implement such a concept this book will appeal to all those interested in issues of peace and conflict in particular to students of politics and international relations

this book provides seven studies that address major issues such as the human rights and human security nexus gender aspects of human security ethical and environmental challenges human security as a basic element for a policy framework the human security agenda developed by the human security network and debates on human security within the united nations building on its variety of themes the book takes account of the complexity and scope of the concept of human security and proposes thereby to refresh and enrich discussion contributors are internationally renowned experts in the different subfields of human security offers an overview of current trends and insights on what is at stake if the international community is to maintain the momentum created a few years ago when the concept of human security emerged designed to help both newcomers and experts in the field of human security readers will find inspiration in the new developments of a concept that aims to shape practical action to meet the needs of the most vulnerable

in this book it is explained that despite a current drop in the number of deaths terrorism should still be considered a serious and widespread problem however the

responses to this phenomenon are often more problematic from a long term perspective with the human rights framework under serious pressure this edited volume offers a timely important and critical in depth analysis of human dignity and human security challenges in the lead up and in the responses to current forms of terrorism it aims to map how human dignity and human security can be secured and how law can constitute a source of trust at a time when europe and the rest of the world continue to be plagued by terrorism the authors are both established names and upcoming talent in this fastchanging and exciting field of law they thoroughly analyse a variety of topical subjects in more conceptual chapters for example calling for the humanisation of the security discourse and in highly practical contributions in which for instance the kafkaesque situation in which rendition and torture victim abu zubaydah still finds himself today is considered this book which focuses on but is not limited to the situation in western countries aims to inspire not only academics through further theorisation on the sometimes elusive but important concepts of human dignity and human security but also practitioners working in the field of countering terrorism it will hopefully convince them even more that following a human rights approach will be indispensable in securing human dignity and human security for all even or in fact especially in times of terrorism christophe paulussen is a senior researcher in the research department of the t m c asser instituut in the hague the netherlands and martin scheinin is professor of international law and human rights in the department of law of the european university institute eui in florence italy

the initial developments of canada s new foreign policy initiative which seeks to center diplomacy around the concept of human security are presented here written by its practitioners in canada s department of foreign affairs and international trade the book s topics each includes one or more case studies that highlight the human cost of various recent conflicts cover human security in a globalized world the evolution of peacekeeping peacebuilding in postconflict societies humanitarian military intervention war affected children international humanitarian law greed and the persistence of violent conflict transnational crime and multilateralism c book news inc

this book critically assesses the human security challenges faced by states focusing on how and to what extent the state is influenced by global structures and operations having grown rapidly since the 1990s the field of human security has spawned a wide variety of academic research this research has helped to reconceptualize the notion of security both broadening and deepening it and it has created a space where unconventional and multidimensional forms of security inform international policy practices however while various issues and cases of human security have received growing academic attention and policy interest

many of the existing books on human security focus primarily on non state actors this leaves a key question unanswered why do sovereign states take on leadership roles in promoting human security to answer the question of why and how national governments influence international human security policy this volume examines the domestic political factors and structures that mediate the range of policy choices important domestic variables include the cultural match e g does the country often favor multilateralism and promote a rule bound international society the nature of the political interests and realities that are present e g does the country see the promotion of human security as a strategic choice and the occurrence of important historical events such as wars revolutions or natural disasters e g does the country during the crisis help to foster a new way of managing enduring security threats using this line of analysis the book illuminates the role of the state in handling critical human security issues and its rationale for doing so this book will be of much interest to students of human security peace studies global governance development studies and ir in general
