el surgimiento de un imperio la creación de playstation y la comprensión del mercado de los videojuegos cuando sony decidió entrar en el mercado de las consolas de videojuegos a principios de los 90 competía con gigantes consolidados como nintendo y sega sin embargo la estrategia que adoptó fue innovadora ya que no solo se centró en crear un producto superior sino también en comprender a fondo la psicología de los jugadores este primer capítulo explora los orígenes de la creación de la playstation cómo la compañía identificó un nicho de mercado y utilizó la psicología para crear un producto que cautivara a los jugadores en la década de 1980 el mercado de los videojuegos estaba dominado por consolas con hardware limitado y títulos superficiales sega y nintendo dominaban el mercado con sus franquicias consolidadas como super mario y sonic pero sony con su trayectoria en tecnología de audio y vídeo quería más cuando ken kutaragi el padre de la playstation se unió a sony trajo consigo una profunda comprensión de cómo las emociones humanas y el entretenimiento interactivo podían entrelazarse de maneras que la competencia aún no había comprendido el gran avance fue comprender que el mercado de los videojuegos no se trataba solo de hardware potente sino de una experiencia emocional e inmersiva la psicología del jugador implicaba mucho más que simplemente elegir el juego adecuado se trataba de crear un vínculo emocional entre el jugador y la consola la playstation desde el principio no fue solo una máquina para jugar sino una plataforma para crear recuerdos y experiencias inolvidables ejemplo práctico imagina que juegas a final fantasy vii en la playstation original lo que podría haber sido un simple juego de fantasía se convierte en un profundo viaje emocional la música de nobuo uematsu la compleja historia los personajes bien desarrollados todo esto no solo entrelaza la jugabilidad sino que conecta al jugador con una experiencia única sony sabía que para atraer a los jugadores necesitaba no solo vender una consola sino una experiencia emocional que perdurara en la memoria del jugador
