contrary to conventional wisdom about capitalism the pervasive norm to acquire wealth and the zealous mission to fight poverty have their double sides often unsaid in that there is no wealth without poverty just as there is no poverty without wealth such that more wealth also creates more poverty consider for instance america which is regarded by many as the wealthiest country on earth at the turn of the 21st century yet this wealthiest country on earth is also the most hated one around the world as a soul searching question after the september 11 2001 terrorist attacks is why do they hate us so isn't it paradoxical dr baofu asks that this enormous accumulation of wealth ends up creating more hatred and violence around the world instead of contributing to a more prosperous humane one is there something fundamentally wrong in this seductive idea of wealth acquisition in capitalism the wealth paradox disappears as dr civilization which prides itself on acquiring wealth as the central focus of life meaning is too inadequate to fulfill fully the domains of life on material relational and spiritual concerns it is so since capitalism as a historical contingency to fight the material impoverishment of pre modernity overdoes itself as a historical solution to the problem of poverty and will not last to be superseded by what dr baofu originally proposed as its successor post capitalism
