traces the history of the use of hallucinogenic drugs and discusses the psychological and physical effects of lsd marijuana mescaline and other drugs

note that this is the complete and final version of the drug users bible people are dying because of ignorance they are dying because unremitting propaganda is denying them vital safety information they are dying because legislators and the media are censoring the science and are ruthlessly pushing an ideological agenda instead they are dying because the first casualty of war is truth and the war on drugs is no different this book makes a significant contribution in confronting this harrowing and tragic narrative over a 12 year period the author of this book self administered over 180 psychoactive substances both chemicals and plants for each he recorded the life sensitive safety data including the anticipated onset times the common threshold doses the routes of administration and the expected duration of the experience in addition for every compound he also produced a trip report detailing the qualitative experience itself this delivered another invaluable insight enabling for example an objective assessment of the extent of any loss of judgement and self control this is a substantial body of work embracing a wealth of direct support material

including addiction overdose advice relative harm tables and legal briefings its contents also extend to cover aspects such as drug tourism psychedelic exploration and drug related culture it is crammed with detailed reference data and even includes its own drug dictionary the drug users bible is a unique and unprecedented volume of encyclopaedic research embracing the full extent of the drugscape its objective is to provide without fear or compromise core and critical information to support the health welfare and well being of the 250 million people in the world who use drugs the book itself is lavishly illustrated with hundreds of photographs taken by the author himself the ten commandments the first section comprises a comprehensive introduction to crucial drug concepts and practices this in itself is indispensable prior reading for anyone who chooses to use a psychoactive substance it contains for example a detailed risk mitigation procedure the 10 commandments of safer drug use this presents a generic set of easily understood steps to aid personal safety inclusive of an illustrated explanation of how to identify test the substances themselves the psychoactive drugs the full gamut of psychoactive chemicals and botanicals is meticulously covered well known examples include heroin cannabis xanax kratom cocaine dmt methamphetamine ketamine lsd ayahuasca alcohol and mdma lesser known examples include 4 ho met calea ephenidine mad honey mapacho a php and yohimbe the scope also extends well beyond the most common categories of psychedelics stimulants depressants and dissociatives included for example are dream herbs and nootropics the investigation of psychoactivity was unbounded and unfettered the worldscape drug use does not occur in a vacuum so the final section considers the wider context with in depth examination of everything from travel to the horrors of the war on drugs facts science and genuine statistics replace the myths fabrications and propaganda of the prevailing social order again with welfare and safety emphasized education saves lives education underpins harm reduction and is the primary driver throughout indeed personal safety is the first and last message and guides the entire narrative this is a book for drug users and their families it is a book which will help to avert tragedy it is a book which will save lives

humans have always been fascinated by drugs and altered states despite the risk of addiction many have used drugs as technologies to induce moments of meaning making transcendence beginning at the close of the eighteenth century this book traces the quest for transcendence and meaning through drugs in the west through the modern period

drugs are ubiquitous in the past and present of capitalist society what can they tell us about our society and economy americans are in the midst of a world historic drug binge opiates amphetamines benzodiazepines marijuana antidepressants antipsychotics across the board consumption has shot up in the 21st century at the same time the united states is home to the largest prison system in the world justified in part by a now zombified war on drugs how did we get here quick fixes is a look at american society through the lens of its pharmacological crutches though particularly acute in recent decades the contradiction between america s passionate love and intense hatred for drugs has been one of its defining characteristics for over a century through nine chapters each devoted to the

modern history of a drug or class of drugs fong examines americans fraught relationship with psychoactive substances as society changes it produces different forms of stress isolation and alienation these changes in turn shape the sorts of drugs society chooses by laying out the histories functions and experiences of our chemical comforts the hope is to help answer that ever perplexing question what does it mean to be an american

this volume evaluates over 160 general and over 400 subject specific encyclopaedias including recent electronic packages this new edition features concise reviews comparison charts and a directory of publishers and suppliers

includes entries for maps and atlases

new edition of a basic text surveying attitudes cross cultural and historical perspectives socialization health care systems living with life threatening illness funerals and body disposition the experience of loss death in children s lives medical ethics the law suicide and concepts of i

this fascinating book presents a scientifically objective and thoroughly documented exposition of the pharmacological and psychological effects of nearly every known substance that affects human consciousness from alcohol to zopiclone it also features first hand accounts and descriptions of the social cultural and religious milieus in which many psychotropic plants are used and discusses historical allusions to many literary and scientific figures who used or wrote of mind altering drugs including freud dickens yeats and huxley intended for a wide audience of general readers seeking unbiased information the book gives an accessible explanation of drug receptor interaction and organic chemical structures as well as descriptions of the discovery isolation and syntheses of the chemical substances responsible for drug activity written by an experienced chemist the book nevertheless keeps technical information to a minimum

all graceful instruments the contexts of the grateful dead phenomenon gathers thirteen representative essays from a wide array of fields into an interdisciplinary anthology that reveals the depth and extent of this fascinating variegated cultural phenomenon contributors use the techniques of literary criticism musicology sociology philosophy business theory and more to explore the meaning and significance of the music of the grateful dead the implications of their artistic and commercial success and the social dimensions of their following the deadheads for scholars and students of american history and culture this book makes a convincing case for why the grateful dead phenomenon is worthy of academic attention and what that study can offer by focusing a wide array of critical approaches on a single discrete subject all graceful instruments provides a refreshing approach to interdisciplinary studies that should appeal to a wide audience

this collection of reviews is arranged by broad subject and indexed by narrow subject by format and by title this work offers nearly 50 reference sources both print and electronic published between 1996 and 1997
