this text provides discussion on the abstract topic of the psychology of language using an information processing approach it brings the current developments and controversies in psycholinguistics to students in a comprehensive style

now in its fifth edition the award winning how languages are learned has established itself as an indispensable introduction to research in language acquisition and its relationship with classroom practice patsy lightbown and nina spada have worked for over four decades in second language research and education they are highly respected worldwide for making theory and research about language learning accessible and relevant to classroom teaching this widely acclaimed book remains essential reading for second language teachers updated content highlights the latest research into second language learning and its relevance to classroom practice activities and questions for reflection personalize content and support critical thinking chapter summaries discussion questions weblinks and supplementary activities are available online at oup com elt teacher hlal

modern languages are offered to young learners at an increasingly early age in many countries yet few publications have focused on what is available to children in different contexts this volume fills this gap by documenting the state of the art in researching young language learners using a variety of research methods it demonstrates how young children progress and benefit from an early exposure to modern languages in different educational contexts and how affective cognitive social linguistic and classroom related factors interact in the processes a special strength is the range of languages although english is the most widely learnt language chapters focus on various target languages croatian french english german italian spanish and ukrainian and the contexts include china croatia

greece hungary ireland norway poland the ukraine and the united kingdom

entrusted by the board of management of the pacific rim objective measurement symposium proms proms2012 is held in jiaxing china from august 6 9 2012 over the past years proms has been hosted in many parts of the pacific rim in singapore malaysia hong kong taiwan and tokyo which has greatly promoted the research of and contributed to the development of rasch model in one way or another as early as in 1980s the ideas and concepts regarding irt was first introduced into china by prof gui shichun my ph d supervisor and it is prof gui who first conducted with great success the ten year long 1990 1999 equating project for matriculation english test met in china met is the most influential entrance examination for higher education administered annually to over 3 3 million candidates then the equating project won recognition by charles alderson and other foreign counterparts during 1990s academically those were good old days for chinese testing experts and psychometricians then for certain reasons the equating practice abruptly discontinued therefore in china nowadays the application of irt based software like bilog parscale iteman 4 and others to real testing problem solving is confined to an extremely small band of people in this sense proms2012 meets an important need in that it provides an excellent introduction of irt and its application and anyone who is seriously interested in research and development in the field of psychometrics or language testing will find such a symposium and related workshops to be an excellent source of information about the application of rasch model proms2012 focuses on recent advances in objective measurement and provides an international forum on both the latest research in using rasch measurement and non rasch practice

this handbook provides an up to date survey of the field of corpus linguistics a field whose methodology has revolutionized much of the empirical work done in most fields of linguistic study over the past decade corpus linguistics investigates human language by starting out from large collections of texts spoken written or

recorded these language corpora which are now regularly available in electronic form are the basis for quantitative and qualitative research on almost any question of linguistic interest many techniques that are in use in corpus linguistics today are rooted in the tradition of the late 18th and 19th century when linguistics began to make use of mathematical and empirical methods modern corpus linguistics has used and developed these methods in close connection with computer science and computational linguistics the handbook sketches the history of corpus linguistics shows its potential discusses its problems and describes various methods of collecting annotating and searching corpora as well as processing corpus data it also reports case studies that illustrate the wide range of linguistic research questions addressed in corpus linguistics the over 60 articles included in the handbook are divided into five sections 1 the origins and history of corpus linguistics and surveys of its relationship to central fields of linguistics 2 corpus compilation 3 corpus types 4 preprocessing of corpora 5 the use and exploitation of corpora the final section gives an overview of the results of corpus studies obtained in phonetics phonology morphology syntax semantics sociolinguistics historical linguistics stylometry dialectology and discourse analysis it also reports on recent advances made in human and machine translation contrastive studies computer assisted language learning and automatic summarization the contributors to the volume are internationally known experts in their respective fields the handbook is intended for a wide audience ranging from teachers university students and scholars to anyone interested in the use of computers in linguistic analyses and applications

provides a comprehensive up to date account of language aptitude theories test development research paradigms and practical implications

includes entries for maps and atlases

with increasing mobility of people across the world there is a pressing need to

develop evidence based teaching practices that lead to high quality education which serves the needs of inclusive societies and social and epistemic justice this book presents cutting edge qualitative case study research across a range of educational contexts research method contributions and theory oriented chapters by distinguished multilingual education scholars these take stock of the field of translanguaging in relation to the education of multilingual individuals in today s globalized world the volume breaks new ground in that all chapters share a focus on teachers as knowledge generators and many on teacher researcher collaboration together the chapters provide comprehensive and up to date applications of the concept of pedagogical translanguaging and present recent research in educational contexts that have hitherto received scant attention namely secondary level education education for adult immigrants and the school wide introduction of pedagogical translanguaging in primary school chapters 1 3 4 and 8 are free to download as open access publications under a cc by nc nd licence you can access them here chapter 1 pedagogical translanguaging theoretical methodological and empirical perspectives an introduction by päivi juvonen and marie källkvist zenodo org records 5267290 ysd2vi5kjcs chapter 3 marie källkvist and päivi juvonen engaging teachers and researchers in classroom research issues of fluidity and time in two multi sited projects zenodo org records 5269023 ysev9o5kjcs chapter 4 pia sundqvist henrik gyllstad marie källkvist and erica sandlund mapping teacher beliefs and practices about multilingualism the development of the multibap questionnaire zenodo org records 5269102 ysjxl45kjiv chapter 8 Åsa wedin trans languaging mathematics as a source of meaning in upper secondary school in sweden zenodo org records 5269113 ysjxzi5kjiv

introduction to special education provides an applied approach to children with disabilities by using specific and well grounded research and suggestions to focus on how the educational practices impact the lives of children their families and their teachers the fourth edition retains the overall organization that was perfected

in its previous editions with a basic overview of the field provided in the early chapters and then the categories of disability covered in order of incidence the fourth edition introduces a new and unique way of looking at the field of special education in the new millennium seeking to both examine its history and present the challenges and possible solutions for its future for anyone interested in special education
