stewart a man who addressed the central paradox of the field its homelessness as a discipline in an academic community that prides itself on specialization

here is a comprehensive introduction to language disorders in children one whose two fold developmental contextual perspective acknowledges that children s language learning systems include not only their skills knowledge and biological abilities but also their language background family settings and the context in which they are attempting to learn language the text s primary focus is on perspectives from normal development and the bulk of the coverage is devoted to examination of expectations for early infant through toddler middle preschool through early elementary and later middle elementary through adolescent stages of learning language these developmentally geared divisions are then used to guide discussions of language assessment and intervention for children who are not learning language normally yet who have characteristics in common with their peers who are

in the course of his study of vengeance as a moral concept french exposes important distinctions between types of moral theories karmic and non karmic and between people who are morally handicapped and those who are morally challenged he examines concepts relevant to vengeance such as honor moral authority and evil and issues such

as the rationality of revenge and proportionality in punishment book jacket

abstract one of the obstacles to be overcome in natural language understanding is the existence of lexical gaps that is words or word senses which are not in the lexicon of the system no lexicon whether hand coded or derived from an on line dictionary can ever be complete in the sense of having entries for every word encountered in every syntactic category and with every semantic sense with which it may be used

although just a decade ago the destruction of a european state and society through war and genocide remains one of the worst global crises of the post cold war era with reverberations still felt today bombardment and sieges of major towns and cities concentration and death camps and the mass slaughter and expulsion of civilians were all characteristics of a type of warfare that europe had never dreamed might return the war against bosnia had a major impact on european and wider global consciousness being as it was then the most reported debated and analyzed conflict to date but despite the extensive coverage of bosnia the author contends the conflict and its origins were certainly misunderstood there being a significant gulf between media perspectives and the thrust of academic discourse this multidisciplinary book is based on extensive research into the tv and newspaper framing of the war during the critical early period of its development uniquely the analysis of media is underpinned by an extensive and detailed historical argument about the nature of the wars and the politics of the federation including the use of media in war making strategies in yugoslavia itself it will be of interest to scholars of ir and politics media communication and journalism studies and war and genocide studies journalists and the general reader will find the book accessible with valuable insights into reporting war and understanding media representation of conflict key issues and questions addressed include the critical use of official sources and propaganda in journalism how media and policymakers interact to define and frame problems for policy action what factors limit the accurate reporting of war what is genocide and how is the genocide convention relevant in practice and how to report genocide when such coverage conflicts with state interests
