in this major new text christoph knill and jale tosun provide an engaging introduction to the theory and practice of public policy analysis and to the changing nature of the policy process the book examines the key approaches and methods of public policy analysis and shows how these can inform public policy choices it assesses the way various actors interests and institutions affect each stage of the policy process including agenda setting decision making and implementation the authors go on to explore core themes such as policy change over time and policy variation across countries and sectors diverse real world examples from alcohol control in russia to environmental policy in mexico are included throughout to illustrate the international and multilevel dimensions of public policy

this ground breaking study offers a new paradigm for understanding the beliefs and religions of the goths burgundians sueves franks and lombards as they converted from paganism to christianity between c 350 and c 700 ce combining history and theology with approaches drawn from the cognitive science of

religion belief and religion in barbarian europe uses both written and archaeological evidence to challenge many older ideas beginning with a re examination of our knowledge about the deities and rituals of their original religions it goes on to question the assumption that the germanic peoples were merely passive recipients of christian doctrine arguing that so called arianism was first developed as an entry level christianity for the goths focusing on individual ethnic groupings in turn it presents a fresh view of the relationship between religion and politics as their rulers attempted to opt for catholicism in place of familiar debates about post conversion pagan survivals contemporary texts and legislation are analysed to create an innovative cognitive perspective on the ways in which the church endeavoured to bring the christian god into people s thoughts and actions the work also includes a survey of a wide range of written and archaeological evidence contrasting traditional conceptions of death afterlife and funerary ritual with christian doctrine and practice in these areas and exploring some of the techniques developed by the church for assuaging popular anxieties about christian burial and the christian afterlife

over the past forty years numerous theoretical advances have been made from ayres and braithwaite s ground breaking work on responsive regulation we have seen models of smart regulation regulatory governance and regulatory capitalism emerge to capture the growing prevalence and importance of regulation in modern liberal western capitalist societies important advances also have been made in the practice of regulation with regulators evolving from traditional enforcement focussed command and control models to being modern regulators with a suite of diverse and innovative regulatory tools at their disposal the book presents and critically examines these theoretical and practical developments from the perspective of governments who design regulations and the regulators that deploy them in doing so the book examines the various forces and interests that influence and shape the regulatory endeavour and the practical challenges facing governments and regulators when deciding whether and how to regulate this volume is a study of regulation in context in the context of the public policy it is designed to deliver the law that enables shapes and holds it to account and the evolving societal and institutional frameworks within which it takes place aimed to provide innovative cross disciplinary conceptual frameworks that regulators regulatees those whom regulation is intended to benefit and academics might employ to better understand and undertake the regulatory endeavour this will be of great interest to researchers educators advanced students and practitioners working in the fields of political science public management and administration and public policy

the second edition of this popular textbook combines coverage of public policies in different countries with the conceptual and methodological frameworks for analysing them this new edition pays particular attention to the international contexts of ideas interests and institutions in which decision makers operate in addition it considers the bilateral multilateral and transnational aspects of policy making in today s interconnected world this is a core text for introductory modules on undergraduate and postgraduate public policy public management and public administration programmes in addition it will be useful for those

courses that take a comparative approach to specific policy areas such as welfare health and education with a focus on enabling students to draw their own comparisons it is the ideal choice for lecturers across the world new to this edition new and improved chapter structure places conceptual discussion before the empirical analysis leading to a stronger emphasis on big picture questions throughout increased attention to contemporary relevant policy issues such as migration climate change and security quantitative and descriptive data has been systematically updated

public policy research has become increasingly comparative over the past several decades but the methodological issues involved in this research have not been discussed adequately this handbook provides a discussion of the fundamental methodological issues in comparative policy research as well as descriptions and analyses of major techniques used for that research the techniques discussed are both quantitative and qualitative and all are embedded in the broader discussion of comparative research design

in recent years the debate on the future institutional shape of the european union has centred on the constitutional treaty and the lisbon treaty as its less ambitious but possibly equally abortive successor the debate has thus neglected the emergence of a wide variety of new and multi level forms of governing the present volume takes stock of these debates and asks critical questions about policy conflicts and the effectiveness and legitimacy of these forms of governance under what conditions can they stand up to the high expectations that are put in them by their supporters the volume offers reflections on the notion of network governance multi level governance and the difficult issue of democratic accountability as well as empirical case studies from the structural funds area as well as from environmental policy broadly conceived

dismantling does not even merit a mention in most public policy textbooks

seminar paper from the year 2012 in the subject politics topic european union grade 1 7 humboldt university of berlin language english abstract this essay is a comparative study of transposition records of eu directives in the case of bulgaria and romania in the years following eu accession in 2007 it will also consider the role the respective national parliament has played it thereby closes an empirical gap in contemporary researches on the topic first this study will review the academic literature on the roles that national parliaments in cee countries have played after the collapse of the soviet union with special reference to transition efforts of these countries bulgaria s and romania s cases will be further sketched out afterwards the methodology for evaluating national parliament s involvement in the transposition of eu directives will be outlined before turning the attention to the comparative analysis of the two case studies the transposition of eu regulations into national legislation is at the heart of the european integration project as this step of the policy process provides for

the congruence and non discrimination of domestic policies among european union eu member states compliance with supranational law shall guarantee state practice to common standards within a union marked by economic disequilibria and political idiosyncracies of each country indeed empirical studies have revealed that timely transposition of eu directives vary across member countries as well as policy areas more generally the transposition of eu law within a fixed deadline is positively correlated to central national preferences and run rather smoothly in issue areas of secondary importance to relevant state actors in countries of central and eastern europe cee however it has been argued that eu accession would lead to some kind of compliance fatigue once the intended goal of eu membership has been reached
