this title was first published in 1966 volume 2 of reform of soviet economic management explores planning profit and incentives in the ussr this survey reform of soviet economic management contains articles and documents translated from the soviet press from the period september 1965 to april 1966

this book presents a collection and analysis of original policy documents newly translated into english from a key period of chinese development providing both a current and a retrospective analysis of china s economic reform efforts topics dealt with include the evolution of chinese economic strategy economic planning and the spread of market mechanisms technology transfer in industry evolution of an agricultural system the development of population policy and foreign economic relations the collection will be of great interest not only to scholars and students of chinese studies but also to professionals and social scientists concerned with china but unable to read source documents in chinese

this book outlines the important foundational insights for enterprise governance and enterprise engineering which are obviously provided by the social and organization sciences but also by other sciences such as philosophy and information technology it presents an employee centric theory of organization in order to secure enterprise performance and also to comply with moral considerations about society and human individuals this is necessary as prescriptions based on best practices or the best managed companies are

often merely anecdotal faddish or controversial and based on unsubstantiated pseudo theories the book consists of four main chapters the first of which summarizes the importance of foundational insights for enterprises and explains the mutual relationships between the basic elements of enterprise governance and enterprise engineering next chapter 2 explains the necessary philosophical foundations concerning knowledge truth language and human existence subsequently chapter 3 describes the ontological foundation and the nature of society and enterprises as understanding their characteristics is a prerequisite for understanding and designing enterprises finally chapter 4 approaches ideological foundations as beliefs and convictions as they create specific requirements for the design of enterprises in this way the book covers all the cornerstones of the employee centric theory of organization drawing on foundational insights the book is mainly intended for students specializing in areas such as business administration management and organization science governance and enterprise and information systems design however professionals working in these areas will also benefit from the book as it allows them to gain a deeper understanding of the theoretical foundations of their work and will thus help them to avoid strategic failures due to a lack of coherence and consistency between the various parts of their organization

master s thesis from the year 2017 in the subject business economics business management corporate governance friedrich alexander university erlangen nuremberg language english abstract the goal of this master s thesis is to examine the relationship between managerial or and business model innovations bmis in established organizations in order to meet the complexity of the topic this thesis is focused on factors that hinder or help managers in recognizing business opportunities focusing on incumbent firms this paper conducts further research to identify the main influencing factors including challenges vulnerabilities and obstacles the thesis is divided into six parts starting with a brief description of the research topic including the problem position and objective second a literature review is conducted to summarize the state of research including theoretical foundations in today s scientific literature the two fields of research bmi or are by no means treated independently from each other for the time being bmi and or are considered independently of each other it is then shown exactly how current literature treats managerial or with respect to bmi the results are then synthesized into a summary highlighting what is known and not known the areas of controversy in the literature are identified and questions are formulated that need further research the third part of the thesis consists of expert interviews derived from the literature review a guideline for interviews is developed to treat the research gaps in an appropriate way and to meet the complexity of the task setting the explorative survey aims to identify the challenges and drivers of managerial or in bmi and to identify approaches that have not yet been addressed in scientific literature to a significant extent the core of the analysis is the splitting of the bm into the elements value proposition value creation and value capture this ensures that all the facets of a company s bm are accurately addressed and form the

basis for high quality results in order to cover a broad range the paper does not focus on a certain industry the interviews are conducted with an array of decision makers in organizations that have attempted or are currently attempting to innovate their bm at the business unit level or the corporate level
