this volume represents the first work published in english dealing with the historical grammar of romanian from a modern theoretical perspective it consists of a selection of papers focusing on the historical grammar of romanian bringing together

diverse theoretical approaches in order to address a number of key morphological and syntactic issues in the history of the morphosyntactic development of romanian the majority of papers in this volume deal with topics in romanian historical syntax drawing on modern research methods and current linguistic theory with a clear preference for parametric syntax the most significant areas of grammar namely the nominal domain and the verbal domain are well represented in this volume

a storyteller s craft can often be judged by how convincingly the narrative captures the identity and personality of its characters in this book the characters who take center stage are strange first person narrators they are fascinating because of how they are at odds with what the reader would wish or expect to hear while remaining reassuringly familiar in voice interactions and conversations combining literary analysis with research in cognitive and social psychology marco caracciolo focuses on readers encounters with the strange narrators of ten contemporary novels including bret easton ellis s american psycho haruki murakami s hard boiled wonderland and the end of the world and mark haddon s the curious incident of the dog in the night time caracciolo explores readers responses to narrators who suffer from neurocognitive or developmental disorders who are mentally disturbed due to multiple personality disorder or psychopathy whose consciousness is split between two parallel dimensions or is disembodied who are animals or who lose their sanity a foray into current work on reception reader response cognitive literary study and narratology strange narrators in contemporary fiction illustrates why any encounter with a fictional text is a complex negotiation of interlaced feelings thoughts experiences and interpretations

earlier empirical studies on valency have looked at the phenomenon either in individual languages or a small range of languages or have concerned themselves with only small subparts of valency e g transitivity ditransitive constructions leaving a lacuna that the present volume aims to fill by considering a wide range of valency phenomena across 30 languages from different parts of the world the individual language studies each written by a specialist or group of specialists on that language and covering both valency patterns and valency alternations are based on a questionnaire reproduced in the volume and an on line freely accessible database thus guaranteeing comparability of cross linguistic results in addition introductory chapters provide the background to the project and discuss its main characteristics and selected results while a series of featured articles by leading scholars who helped shape the field provide an outside perspective on the volume s approach the volume is essential reading for anyone interested in valency and argument structure irrespective of theoretical persuasion and will serve as a model for future

descriptive studies of valency in individual languages

this monograph constitutes the first comprehensive investigation of reciprocal constructions and related phenomena in the world's languages reciprocal constructions of the type the two boys hit each other the poets admire each other's poems have often been the subject of language particular studies but it is only in this work that a truly global comparative picture emerges nine stage setting chapters dealing with general and theoretical matters are followed by 40 chapters containing in depth descriptions of reciprocals in individual languages by renowned specialists the introductory papers provide a conceptual and terminological framework that allows the authors of the individual chapters to characterize their languages in comparable terms making it easy for the reader to see points of commonality between languages and constructions that have never been compared before this set of volumes is an indispensable starting point and will be a lasting reference work for any future studies of reciprocals
