implement and maintain this new standard because it is designed as a practical guide to enable companies to register there is a special section called preparing for assessment which covers all the nuances needed to optimise the chance of success when being formally assessed ticket iso 9000 3 the equivalent standard for software development is also examined in detail and shows precisely how it integrates with iso 9001 it has been calculated that a third of the cost a company incurs in achieving registration is spent on fees for consultants to help explain the rules and prepare for assessment for the cover price of the quality systems manual you could buy yourself about one hour of a consultant's time
