year after year readers pulled me aside at events and said i ve never had a problem starting i ve started a million things but i never finish them why can t i finish according to studies 92 percent of new year s resolutions fail you ve practically got a better shot at getting into juilliard to become a ballerina than you do at finishing your goals for years i thought my problem was that i didn t try hard enough so i started getting up earlier i drank enough energy drinks to kill a horse i hired a life coach and ate more superfoods nothing worked although i did develop a pretty nice eyelid tremor from all the caffeine it was like my eye was waving at you very very quickly then while leading a thirty day online course to help people work on their goals i learned something surprising the most effective exercises were not those that pushed people to work harder the ones that got people to the finish line did just the opposite they took the pressure off why because the sneakiest obstacle to meeting your goals is not laziness but perfectionism we re our own worst critics and if it looks like we re not going to do something right we prefer not to do it at all that s why we re most likely to quit on day two the day after perfect when our results almost

always underperform our aspirations the strategies in this book are counterintuitive and might feel like cheating but they're based on studies conducted by a university researcher with hundreds of participants you might not guess that having more fun eliminating your secret rules and choosing something to bomb intentionally works but the data says otherwise people who have fun are 43 percent more successful imagine if your diet guitar playing or small business was 43 percent more successful just by following a few simple principles if you're tired of being a chronic starter and want to become a consistent finisher you have two options you can continue to beat yourself up and try harder since this time that will work or you can give yourself the gift of done

our summary is short simple and pragmatic it allows you to have the essential ideas of a big book in less than 30 minutes by reading this summary you will learn how to reach all your goals with techniques and tips that will increase your efficiency tenfold you will also learn why you can't get to the bottom of things how to be more motivated that working hard is not an obligation how to have fun when you give up a project how to follow your progress collegially 92 of new year's resolutions are never kept every year millions of people start a new activity decide to lose weight play sports write a book or prepare for graduation only a minority of them succeed because no one really learns how to follow through often you will read that the great secret to performing miracles is to overcome your fear and get on with it this is not true starting is important but finishing is even more important motivation and discipline are not the most important things to achieve this there are shortcuts and tricks to get you there buy now the summary of this book for the modest price of a cup of coffee
