moral philosophy is the study of what morality is and what it requires of us as socrates said it's about how we ought to live and why it would be helpful if we could begin with a simple uncontroversial definition of what morality is unfortunately we cannot there are many rival theories each expounding a different conception of what it means to live morally and any definition that goes beyond socrates's simple formula is bound to offend at least one of them this should make us cautious but it need not paralyze us in this chapter i will describe the minimum conception of morality
