so many of these 16 songs happened just as their respective titles suggest for instance while suggesting or trying to convince our children that it was time to take a bath or shower now it became the title of fun and playfulness to entice them to let s go take a bath now the same with brushing teeth every morning every night so many of these songs originated spontaneously on the spot and spur of the moment and then evolved over time and with repetition into the words and phrasing they are today many times one child or another would begin to sing and repeat or request a certain phrase or story or melody and we would sing it or play it over and over and then modulate it and link it into one of the other songs from another day or simply sing it over and over 10 or fifteen times in a row many times that would reveal still another little melody or phrase and even another little hidden new song would be born the teaching songs and cadences and pacing of the measurement and label songs as well as the numbers days of the week and the months of the year were created to play into our children s absorption of knowledge of everyday facts for their futures lasting a lifetime and one day teaching their own children and

grandchildren and influencing many others who would teach others who would teach others etc etc and always be fun and catchy and energetic and develop children in many ways we all continue to enjoy so much happiness from these words and melodies and paintings and continue to share them and teach them to develop singing and rythym and joy vocabulary and learning positive attitudes and love confidence and we especially hope that these songs will become a blessing to you and yours as well enjoy
