richard lischer s book is a stirring affirmation of preaching s importance as a major enterprise in its own right it is he writes a theological preface whose aim is to show how theology informs preaching and how preaching as a kerygmatic oral practical activity informs theology and brings it to its final form of expression dr lischer points to the historically negative results of preaching s exclusion from theology and then shows the benefits derived from the proper interaction of the two disciplines as he elaborates on this theme he explores the centrality of the resurrection in both theology and preaching the relation of the law and the gospel and how preaching calls upon theology to recover its oral aural foundation for lischer the act of preaching is an exercise of the preacher s imagination the real work of imagination is not inserting clever stories or esthetically pleasing images into the argument of the sermon it is knowing how to read texts in such a way that they will be allowed to function according to their original power and intent
