an exceptionally well known social psychologist offers the most definitive work to date on life cycle sociology appropriate as a text or supplement for courses on socialization social psychology and aging foundations of modern sociology series

this introductory book provides an insight into sociological life course research and informs about its theoretical assumptions analytical concepts and main results sociological life course research like biographical research has developed into an independent and fruitful field of research since the end of the 1960s it is true that half a century earlier in their famous study of the

polish peasant in europe and america 1918 20 thomas and znaniecki had already used life records to examine the connection between social change social structures and the life histories of individuals however such a research perspective was supplanted by other methodological conceptual approaches to empirical social research for over fifty years it was not until the 1960s that sociological interest in life course and biographical theoretical issues reawakened today life course research is considered one of the most important conceptual innovations in sociology in recent decades the content the life course as a social construction what is life course research the life course as an institution collective life courses generations cohorts and social change structures of the life course life course research a conceptual perspective life course research quo vadis the author prof dr matthias wingens teaches sociology at the university of bremen bremen international graduate school of social sciences bigsss
