anthony giddens has been described as the most important englishsocial philosopher of our time over twenty five years and evenmore books he has established himself as the most widely read andwidely cited social theorist of his generation his ideas haveprofoundly influenced the writing and teaching of sociology andsocial theory throughout the english speaking world in recentyears his writing has become much more explicitly political andin 1996 he took up his high profile appointment as director of thelondon school of economics and political science it is in this newposition and with these new political ideas that

he has been described as the key intellectual figure of new labour in Britain following the astonishing success of Labour in the 1997 general election his ideas have been the focus of intense interest in this series of extended interviews with Chris Pierson Giddens lays out with customary clarity and directness the principal themes in the development of his social theory and the distinctive political agenda which he recommends this volume will be of great interest to second and third year students in sociology and social theory politics and political theory as well as to the general reader

now available in a discounted bundle buy the exciting new seventh edition of Anthony Giddens and Philip W. Sutton's sociology alongside the specially tailored and revised selection of key sociological works in sociology introductory readings the main textbook provides an authoritative overview of recent global developments and new ideas in sociology classic debates are also given careful coverage with even the most complex ideas explained in an engaging way the reader offers a stimulating and wide ranging set of readings to enable students to get to grips with original sociological thinking a strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively yet remains challenging together the two books provide an engaging and thorough introduction to the full scope of sociology a comprehensive resource for all students for additional support and material please visit the accompanying website at politybooks.com/giddens

in this major theoretical statement the author offers a new and provocative interpretation of the institutional transformations associated with modernity we do not as yet he argues live in a post modern world rather the distinctive characteristics of our major social institutions in the closing period of the twentieth century express the emergence of a period of high modernity in which prior trends are radicalised rather than undermined a post modern social universe may eventually come into being but this as yet lies on the other side of the forms of social and cultural organization which currently dominate world history in developing an account of the nature of modernity Giddens concentrates upon analyzing the intersections between trust and risk and security and danger in the modern world both the trust mechanisms associated with modernity and the distinctive risk profile it produces he argues are distinctively different from those characteristic of pre modern social orders this book builds upon the author's previous theoretical writings and will be of fundamental interest to anyone concerned with Giddens's overall project however the work covers issues which the author has not previously analyzed and extends the scope of his

work into areas of pressing practical concern this book will be essential reading for second year undergraduates and above in sociology politics philosophy and cultural studies

social life is in a constant process of change and sociology can never stand still as a result contemporary sociology is a theoretically diverse enterprise covering a huge range of subjects and drawing on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts necessarily evolves and changes this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and continue to do so going beyond brief dictionary style definitions anthony giddens and philip w sutton provide an extended discussion of each concept which sets it in historical and theoretical context explores its main meanings in use introduces relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to the digital revolution environment postcolonialism and intersectionality it will be essential reading for all those new to sociology as well as anyone seeking a reliable route map for a rapidly changing world
