analyses and applies the africapitalism philosophy to economic prosperity and social wealth in africa presenting a new approach to africa s development

contents

issues for 1973 include section nigerian periodicals continuing the library s nigerian periodicals 1950 55

one of a series of monographs published as part of a unesco program to analyze the communication policies of selected countries this report provides information about nigeria various sections of the report discuss the following topics 1 nigeria s socioeconomic and political geography 2 its system of mass communication 3 its public policies concerning the mass media 4 the policies of its mass media 5 the distribution of professionals in the various print and broadcast media and 6 an alternative communication policy for the country an appendix contains tables of data a copy of the code of conduct for the nigerian press and an editorial on that code and a list of newspapers and magazines that have been published in nigeria since 1859 fl

originally published in 1994 folk law a comprehensive two volme collection of essays examines the meeting place of folklore

the unwritten law of obligations and prohibitions that are understood and passed on and jurisprudence the contributors explore the historical significance and implications of folk law its continuing influence around the globe and the conflicts that arise when folk law diverges from official law valuable for students and scholars of law folklore or anthropology renteln and dundes s extensive casebook marks a rare interdisciplinary approach to two important areas of research

the campaign in nigeria

the book reveals how green buildings are currently being adapted and applied in developing countries it includes the major developing countries such as china indonesia malaysia thailand pakistan cambodia ghana nigeria and countries from the middle east and gathers the insights of respected green building researchers from these areas to map out the developing world s green building revolution the book highlights these countries contribution to tackling climate change emphasising the green building benefits and the research behind them the contributing authors explore how the green building revolution has spread to developing countries and how national governments have initiated their own green building policies and agendas they also explore how the market has echoed the green building policy and how a business case for green buildings has been established in turn they show how an international set of green building standards in the form of various techniques and tools has been incorporated into local building and construction practices in closing they demonstrate how the developing world is emerging as a key player for addressing the energy and environmental problems currently facing the world the book helps developers designers and policy makers in governments and green building stakeholders to make better decisions on the basis of global and local conditions it is also of interest to engineers designers facility managers and researchers as it provides a holistic picture of how the industry is responding to the worldwide call for greener and more sustainable buildings
