praise for previous edition a comprehensive meticulously researched study of contemporary international law governing the use of armed force in international relations andrew garwood gowers queensland university of technology law review volume 12 2 when this first english language edition of the law against war published it quickly established itself as a classic detailed analytically rigorous and comprehensive it provided an indispensable guide to the legal framework regulating the use of force now a decade on the much anticipated new edition brings the work up to date it looks at new precedents arising from the arab spring the struggle against the islamic state in iraq and syria and the conflicts in ukraine and yemen it also reflects the new doctrinal debates surrounding recent state practice previous positions are reconsidered and in some cases revised notably the question of consensual intervention and the very definition of force particularly to accommodate targeted extrajudicial executions and cyber operations finally the new edition provides detailed coverage of the concept of self defense reflecting recent interpretations of the international court of justice and the ongoing controversies surrounding its definition and interpretation

this book explores how public opinion is used to design monitor and evaluate government programmes in australia canada new zealand and the united kingdom using information collected from the media and from international practitioners in the public opinion field as well as interviews

in each of the 4 countries the author describes how views of public opinion and governance differ significantly between elites and the general public bennett argues that elites generally risk more by allowing the creation of new data fearing that its analysis may become public and create communications and political problems of various kinds the book finds evidence that recent conservative governments in several countries are changing their perspective on the use of public opinion and that conventional public opinion studies are facing challenges from the availability of other kinds of information and new technologies this book is a hugely valuable contribution to a hitherto little explored field and will appeal to academics and practitioners alike
