powerful barack obama searing new york times how do you comfort a man who has just lost his best friend how does it feel to see fear in your wife's eyes what does it mean to come home in one of the most acclaimed and celebrated collections of stories for years redeployment takes readers to the frontlines of the wars in iraq asking us to understand what happened there and what happened to the soldiers who returned

expansive explosive and epic marlon james a courageous book new york times book review a barack obama book of the year 2020 neither mason a us special forces medic nor lisette a foreign correspondent has emerged from america's long wars in iraq and afghanistan unscathed yet for them war still exerts a terrible draw the noble calling the camaraderie the life and death

stakes where else in the world can such a person go all roads lead to colombia where the us has partnered with the local government to stamp out a vicious civil war and keep the predatory narco gangs at bay mason is ready for the good war and lisette is more than ready to cover it

please note this is a companion version not the original book sample book insights 1 i have always been drawn to the stories of violence in iraq even though i was never in any danger myself i feel that by not talking about these experiences we are failing to process them 2 i was given two weeks leave halfway through my deployment and i went home to new york at one point i walked down madison avenue near where it intersects with broadway suddenly i felt the urge to weep the images came back not as photographs but as living memories 3 i was not there when the photos were taken but i still remember the emotions they sparked in me i feel guilty about the sorrow i feel because i know it is manufactured and i feel guilty about the sorrow i do not feel because it is owed it is the barest beginning of what is owed to the fallen 4 the day osama bin laden died i learned that one of my former marines was permanently blind the iraq war and the afghanistan surge were both based on the success of the iraq surge which was an outgrowth of previous iraq policy

from the national book award winning author of redeployment and missionaries an astonishing fever graph of the effects of twenty years of war in a brutally divided america when phil klay left the marines a decade ago after serving as an officer in iraq he found himself a part of the community of veterans who have no choice but to grapple with the meaning of their wartime experiences for themselves and for the country american identity has always been bound up in war from the revolutionary war of our founding to the civil war that ended slavery to the two world wars that launched america as a superpower what did the current wars say about who we are as a country and how should we respond as citizens unlike in previous eras of war relatively few americans have had to do any real grappling with the endless invisible conflicts of the post 9 11 world in fact increasingly few people are even aware they are still going on it is as if these wars are a dark star with a strong gravitational force that draws a relatively small number of soldiers and their families into its orbit while remaining inconspicuous to most other americans in the meantime the consequences of american military action abroad may be out of sight and out of mind but they are very real indeed this chasm between the military and the civilian in american life and the moral blind spot it has created is one of the great themes of uncertain ground phil

klay s powerful series of reckonings with some of our country s thorniest concerns written in essay form over the past ten years in the name of what do we ask young americans to kill and to die in the name of what does this country hang together as we see at every turn in these pages those two questions have a great deal to do with each another and how we answer them will go a long way toward deciding where our troubled country goes from here

a white knuckle adventure this near future was crafted by experts and it shows daniel h wilson new york times best selling author of robopocalypse fantastic compelling and authoritative general david petraeus us army ret an fbi agent hunts a new kind of terrorist through a washington dc of the future in this ground breaking book at once a gripping technothriller and a fact based tour of tomorrow america is on the brink of a revolution one both technological and political after narrowly stopping a bombing at washington s union station fbi special agent lara keegan receives a new assignment to field test an advanced police robot as a series of shocking catastrophes unfolds the two find themselves investigating a conspiracy whose mastermind is using cutting edge tech to rip the nation apart with every tech trend and scene drawn from real world research burn in blends a techno thriller s excitement with nonfiction s insight to illuminate the darkest corners of the world soon to come

this catalog was published in conjunction with the exhibition aftermath the fallout of war america and the middle east organised by the samuel p harn museum of art university of florida

this essay focuses on phil klay s collection of short stories about the iraq war redeployment as a piece of war rhetoric i examine it as a proponent of serious engagement with war and explicate the text specifically as it discusses disconnect i will discuss disconnect in greater detail shortly but first allow me to suggest that the consideration of war literature like klay s as persuasive rhetoric is important because of the degree to which it informs civilians perceptions and opinions
