*Captivated by You* is the fourth book in the continuing series by novelist Sylvia Day. It takes the story further and encompasses the period between Gideon and Eva eloping and their actual wedding. At this time very few of their good friends know of their real marital status. The novel may be read as a standalone book but when read as part of the series it offers a more in depth reading experience since there are a number of references to characters and past events from the earlier books. *Captivated by You* is more than just a romance. It may have sexual and steamy love making scenes but that is now part of the genre. A complex story that does not end when the guy gets the girl. It actually starts with the guy getting the girl. It goes on to check out their sexual lives and their psychological fears and needs. Dominance, the need for power and the underlying sexual longing all have an impact on their relationship. Summary of *Leaving Time* includes book review, story analysis, highlights of elements many readers may have missed, key character analysis, discussion of themes, symbols and key takeaways, chapter by chapter breakdown of entire book. About the Author. Ant Hive Media reads every chapter, extracts the understanding and leaves you with understanding and time to spare. We do the work so you can understand the book in minutes not hours.

Women now receive more college degrees than men and enter the workforce with better job opportunities than ever before. Indeed the wage gap between men and women has never been smaller. So why does the typical woman have only 36 cents for every dollar of wealth owned by the typical man? How is it that never married women working full time have only 16 as much wealth as similarly situated men and why do single mothers have only 8 of the wealth of single fathers? The first book to focus on the differences in wealth between women and men, *Shortchanged* is a compelling and accessible examination of why women struggle to accumulate assets, who has what and why it matters. Mariko Lin Chang draws on the most comprehensive national data on wealth and on in depth interviews to show how differences in earnings, in saving and investing and most important the demands of care giving all contribute to the gender wealth gap. She argues that the current focus on equal pay and family friendly workplace policies although important will not ultimately change or eliminate wealth inequalities. What Chang calls the wealth escalator comprised of fringe benefits, the tax code and government benefits and the debt anchor must be the targets of policies aimed at strengthening women's financial resources. Chang proposes a number of practical suggestions to address the unequal burdens and consequences of care giving so that women who work just as hard as men will not be left standing in financial quicksand. A comprehensive portrait of where women and men stand with respect to wealth, *Shortchanged* not only sheds light on why women lack wealth but also offers solutions for improving the financial situation of women, men and families.
